Moved by Council Member Ramos to adopt Resolution No. 23-R-2020-2021 setting a Public Hearing for November 16, 2020 at 5:00 pm in City Hall Council Chambers. Due to Covid-19, this meeting will be a telephonic meeting only. Dial in to participate: 1-408-418-9388 Access Code: 1461705214. Seconded by Council Member Ibarra. Roll call vote: All ayes. Motion carried.

RESOLUTION NO. 23-R-2020-2021

RESOLUTION SETTING HEARING ON A PROPOSAL TO ADOPT BY REFERENCE PARTS OR ALL OF A CERTAIN STATEWIDE OR NATIONALLY RECOGNIZED STANDARD CODE AND IOWA CODE SECTIONS AS PART OF AN ORDINANCE AMENDING THE CITY'S ELECTRICAL CODE AND PRESCRIBING NOTICE

WHEREAS, the City Council of the City of Storm Lake, Iowa has, from time to time, adopted by reference the provisions of certain statewide or nationally recognized standard codes or portions of such codes by ordinances which identify the codes by subject matter, source, and date, without setting them forth in full, as permitted by Iowa Code Section 380.10;

WHEREAS, the City Council of the City of Storm Lake, Iowa has, from time to time, adopted by reference the provisions of certain portions of the Code of Iowa related to such statewide or nationally recognized standard codes or portions of such codes by ordinances without setting them forth in full, also as permitted by Iowa Code Section 380.10;

WHEREAS, the City's Electrical Code is included among such codes that are adopted in whole or part by reference to statewide or nationally recognized standard codes and portions of the Code of Iowa;

WHEREAS, the City Council now intends to consider adopting an ordinance that amends and updates the City's Electrical Code by reference to an updated statewide or nationally recognized standard code and portions of the Code of Iowa;

WHEREAS, the updated statewide or nationally recognized standard code to be adopted in whole or part by reference is the National Electrical Code, 2020 Edition;

WHEREAS, the Iowa Code sections to be adopted in whole or part by reference are sections 100.1, 100.35, 103.1 and 103.6;

WHEREAS, Iowa Code Section 380.10 requires the Council to hold a public hearing on any proposed standard code or on the portion of the standard code to be adopted by reference and to hold a public hearing on any portion of the Code of Iowa to be adopted by reference; and

WHEREAS, copies of the standard code or portions thereof and the portions of the Iowa Code proposed to be adopted by reference are available for review by members of the public at the office of the City Clerk of the City of Storm Lake, City Hall, 620 Erie Street, Storm Lake, Iowa.

NOW, THEREFORE, be it hereby resolved that this proposal to adopt by reference parts or all of such statewide or nationally recognized standard code and Iowa Code sections as part of an Ordinance amending the City's Electrical Code shall be scheduled for public hearing at the Council Chambers at City Hall at the regular council meeting scheduled November 16, 2020, at 5:00 p.m. The City Clerk is directed to have a copy of this Resolution published in the Storm Lake Times on a date not less than four (4) days nor more than twenty (20) days prior to said meeting. The City Clerk is further directed to have available in the City Clerk's office at the Clerk's address shown above copies of the standard codes or portions thereof and the portions of the Iowa Code proposed to be adopted by reference for review by members of the public.

Passed and approved this 2nd day of November, 2020.

Michael Porsch, Mayor

ATTEST:

Mayra A. Martinez, City Clerk

Tulip Lane Stormwater Improvements Project - Moved by Council Member Smith to approve an amendment to the professional services agreement with Bolton & Menk for the Tulip Lane Stormwater Improvements project. Amendment No. 1 not to exceed \$72,400 for a total of \$121,365 for the contract. Seconded by Council Member Ramos. Vote: All ayes. Motion carried.

Full Water System Study Project - Moved by Council Member Rice to approve professional engineering services with ISG for a Full Water System Study project. Total cost of engineering services for \$223,850. Seconded by Council Member Ibarra. Vote: All ayes. Motion carried.

Outdoor Water Park Season Pass Special - Moved by Council Member Ramos to approve the Outdoor Water Park Season Pass Special for November 26 through the 29th 2020 in the amount of \$199 plus tax. Seconded by Council Member McKinney. Vote: All ayes. Motion carried.

Oneida Street Reconstruction Project, Phase 1 - Moved by Council Member Rice to approve an amendment to the professional services agreement with Bolton & Menk for the Oneida Street Phase 1 Reconstruction project. Amendment amount of \$146,570 for a total cost of \$534,870. Seconded by Council Member Ibarra. Vote: All ayes. Motion carried.

FEMA Lake Bank Restoration Project - Moved by Council Member McKinney to adopt Resolution No. 24-R-2020-2021 approving final completion, change order No. 1 for a reduction of \$6,465.49, and final payment of \$69,141.01 for the FEMA Lake Bank Restoration project. Seconded by Council Member Smith. Roll call vote: All ayes. Motion carried.

RESOLUTION NO. 24-R-2020-2021
RESOLUTION APPROVING FINAL PAYMENT, CHANGE ORDER NO. 1 AND CLOSE OUT OF
THE FEMA LAKE BANK RESTORATION PROJECT

Whereas, in 2019 a storm event caused damage to the lake bank along Lighthouse Drive near Scout Park; and

Whereas, with FEMA funding assistance, Reding Gravel and Excavating, Inc. was selected to perform repairs to the lake bank by City Council on February 17, 2020; and
Whereas, repairs of the lake bank were completed on May 28, 2020.

NOW, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STORM LAKE, IOWA:
Section 1. To approve Certificate of Completion as submitted by Bolton & Menk for the FEMA Lake Bank Restoration Project pursuant to the contract with Reding Gravel & Excavation, Inc. for work performed in the amount of \$76,606.50
Section 2. To acknowledge that the final amount of the contract for work performed by Reding Gravel & Excavation, Inc. is \$69,141.01 as noted in Change Order No. 1, a reduction of \$6,465.49.
Section 3. Final payment will be made to Reding Gravel & Excavation in the amount of \$69,141.01.

PASSED AND APPROVED this 2nd day of November 2020.

Michael Porsch, Mayor

ATTEST:

Mayra A. Martinez, City Clerk

Work Session – Urban Chicken Discussion II – Assistant City Manager David Derragon presented to City Staff and City Council the possibility of amending the Zoning Ordinance, per public request, to allow or not allow chickens on a property in city limits and what limitations are needed. Upon review of the discussions from the public, the public forums and the current Ordinance, the Council decided that there were no changes to be made to the current ordinance and no future work sessions or discussions will be needed regarding the request.

Work Session – City Code Chapter 5-10 Property Maintenance – City Manager Keri Navratil presented to City Staff and City Council the changes discussed at the prior City Council Meeting for amending Chapter 5-10 Property Maintenance of the City Code. The Council had no additional changes in regard to the discussion.

Moved by Council Member Smith to adopt Resolution No. 25-R-2020-2021 setting a Public Hearing for November 16, 2020 at 5:00 p.m. in City Hall Chambers to amend the City Code Chapter 5-10 Property Maintenance. Business Phone #	7122136106
E-mail Address	tim.steffen@tyson.com
Preferred Method of Communication?	Call, Text
How long have you lived in Storm Lake?	12 years
Employer	Tyson (Turkey Plant)
Occupation	HR Manager II

List any
volunteer/civic/community
activity in which you have
been involved:

Rotary 2008 to present / RAGBRAI 2010 / Community United
Board 2005 to 2008 / Faith Hope & Charity Board 2005 to
2008/ Bible Study 1:10 Group Leader 2019

Please check the following
City boards or commission
to which you would like to
be appointed:

Planning & Zoning Commission

Why do you want to serve
on this board or
commission?

I was asked but not sure about 3 year term maybe less time if
possible

In accordance with Iowa Code Chapter 362 the City must determine what
relationships or transactions you may have or potentially have with the City of
Storm lake prior to your appointment to a Board or Commission. In order to do this
we must ask you to answer the following questions.

Do you or any immediate
family member own or are
part owners of a business
dong business with the City
of Storm Lake?

No

If so, name of the business
and the percentage you or
immediate family member
own?

Field not completed.

Are you employed by any
business dong business with
the City of Storm Lake?

No

If Yes:

Field not completed.

What is the name of the
Business:

Tyson Turkey

Is your salary/bonus
determined by financial
performance of the
company or do you receive
a commission?

No

I certify that above answers are correct and true.

REPORT TO: Honorable Mayor and City Council

FROM: Mayra Martinez, City Clerk

SUBJECT: Buy Local Information

BACKGROUND: Early in 2011 during a Study Session discussion Council asked staff to look at putting together some analysis information regarding the amount of purchases made locally. We have pulled that information together and a provided a summary of purchases identified in the current list of bills to be approved that are purchased locally (within the City of Storm Lake), within Buena Vista County, and outside of Buena Vista County are presented here for Council's review. This information is presented for for both the City and King's Pointe's bills.

As the reader reviews the information they should note the following key notes:

- Costs associated with any major capital project (those bid under the State of Iowa Bid Law) are excluded from the calculation
- Costs associated with travel is excluded from the calculation and %
- Costs associated with payroll is excluded from the calculation and %
- In some cases there is only one vendor or an item is only available from vendors outside of the City limits and/or Buena Vista County – we have not identified these
- Some departments have fairly minor budgets and a major purchase can skew the % and or amount for a given review period (For Example: the Airport may have normally \$4,000 - \$6,000 in expenses until they purchase Jet Fuel or Av Gas which can be \$10,000 + and as a vendor who is not local this can skew the information for that review period)
- Local has been determined to be has an office front in the

area and based on where the office front is located for local vs. BV County (For Example: Wal-Mart is considered local since they have a store in Storm Lake even though their headquarters is not located here)

As with all analytical data it is possible to interpret the numbers in a variety of ways and as we move forward we would be happy to provide further detail and or revise the way in which we show the data. Likewise if you have any questions or concerns please don't hesitate to contact city staff.

FISCAL IMPACT:

Breakout	Calculated Expenses
Buena Vista County	\$ 6,347.93
Contract/Agreement	\$ 151,114.72
Local	\$ 111,268.26
Non- Local	\$ 198,839.42
Payroll/Refunds/Pyrl Tax & Ins	\$ 172,726.44
Total Expenses	\$ 640,296.77

REPORT TO: Honorable Mayor and City Council

FROM: David Derragon, Assistant City Manager

SUBJECT: **Adoption of Policy & Procedure Manual for Snow & Ice Removal**

BACKGROUND: The Policy & Procedure Manual for Snow & Ice Removal has been reviewed and updated. Generally, the information updated was of a housekeeping manner in respect to current operations. Information was also placed on the City's website to add clarity to snow removal procedures.

Staff also had a meetings in September with snow removal contractors and the public to discuss how we could work better together, especially in the Central Business District. The meeting was informative and productive.

FISCAL IMPACT: The updated information is highlighted in the attached manual.
No Fiscal Impact

RECOMMENDATION: Staff recommends that Council adopt the updated Policy & Procedure Manual for Snow & Ice Removal effective November 16, 2020

MANAGEMENT

AIRPORT SNOW AND ICE REMOVAL POLICY

POLICY AND PROCEDURE MANUAL SNOW AND ICE REMOVAL CITY OF STORM LAKE

POLICY

This document states the normal snow and ice removal policies of the City of Storm Lake. However, under certain circumstances; emergency situation, budgetary concerns, personnel problems, and the unpredictability of weather conditions in Northwest Iowa, these policies may have to be suspended or superseded when conditions warrant.

The City of Storm Lake does not utilize a “Bare Pavement” snow/ice removal policy.

IOWA WEATHER CONDITIONS

The average annual snowfall in Storm Lake is 39.75 inches per year. We anticipate 25 snowfall or ice events per year, which requires action on part of the City for removal or control.

The overall budgetary and planning goal for our snow and ice removal efforts is: plan for the worst, hope for the best, budget for an average snowfall, and use contingency funds if we have a severe winter.

DECLARATION OF SNOW EMERGENCY

The City Manager or designee will declare a snow emergency when weather conditions constitute snow removal. The Public Services Supervisor shall set the duration of the snow emergency however it may be amended if weather conditions constitute.

In the Central Business District (CBD), said prohibition shall be between two o'clock (2:00) A.M. to six o'clock (6:00) A.M. unless specified in the declaration. In the Residential District, said prohibition shall be between the hours of ten o'clock (10:00) P.M. and six o'clock (6:00) A.M. Two parking lots are designated for overnight parking, they are parking lot A. located at the corner of Geneseo Street and W 6th Street and parking lot C, located on the east side of the 700 block of Erie Street. Parallel parking, rather than diagonal, is encouraged when necessary in the CBD.

Notification the public is sent through a press release to the media, the City of Storm Lake web page is updated, there is also a snow emergency number citizens can call (712-213-7669), also a WENS notification is sent out to users who have signed up to received such notifications. There are also signs posted at the following businesses: City Hall, Tyson Pork, Fareway, Hy-Vee, Walmart and Bomgaars. Tyson Poultry is notified via email.

USE OF CHEMICALS AND ABRASIVES (SALT AND SAND)

The policy of the department is to use salt or salt brine for melting of ice and hard packed snow. Salt is used only when it can be effectively applied. As a general rule, it will not be applied when temperatures are below 20°F and falling, for salt -10° for salt brine.

A mixture of 50% salt and 50% brine is the normal mix rate. More concentrated salt mixes will be used when conditions dictate.

Locally available screened/washed sand is used as an abrasive to help remove ice and hard packed snow and as a driving aid during slippery conditions. Because of the environmental impact on the lake, calcium chloride is not used at this time, but will continue to be investigated as an effective ice-melting agent below 20°F. Other chemicals will also be investigated and monitored for cost-effective ice removal.

EQUIPMENT AVAILABLE

The primary equipment available to remove snow and ice will be supplied by the City Public Services Department. The Parks Department may assist with equipment to remove snow from public sidewalks. See appendix for full equipment list.

During normal snow removal operations, 7 truck plows, 3 end loaders, 1 road grader, 6 sanding trucks and 2 toolcats are available.

All truck-mounted snowplows have quick attachments and can be mounted in 15 minutes or less per truck.

The sanding units consist of 5 end gate type sanders and 2 live bottom dump body sander.

During a major blizzard event, contractor emergency equipment may be placed in service.

MANPOWER AVAILABLE

The primary manpower for snow removal shall be supplied by the City Public Services Department. (See Appendix) The manpower consists of 1 supervisor, 1 assistant supervisor and 9 operators.

For normal snow events, the City Public Services Department Supervisor and City Manager shall determine hours, as conditions direct.

EMERGENCY SNOW ROUTES

A system of unmarked snow routes has been established for effective snow removal on the collector and arterial system. The snow routes consist of 14(fourteen) miles for 24% of the street system and provide service to within three blocks of all residential properties; and direct access to nursing homes, government buildings, schools, and businesses. Any hour snow and ice removal will be provided to the emergency snow routes. (See Appendix)

MONITORING AND NOTIFICATION OF ICE/SNOW EVENTS

The Police Department and the Public Services Supervisor when inclement weather is approaching shall continuously monitor weather reports. The Police Chief, Public Services Supervisor and City Manager shall keep each other informed of anticipated snow events, including timing and intensity of the event. The primary responsibility shall rest with the Public Services Supervisor.

During nighttime, weekends and holidays the Police Department shall monitor weather reports and road conditions and notify the Public Services Supervisor when potential action is needed by the City Public Services Department.

During normal weekday operations, the Police Department Shift Supervisor (lieutenant) shall notify the appropriate crew chief on duty when action may be needed by the Public Services Department. (See call list in appendix for notification of appropriate personnel.)

SANDING/SALTING PROCEDURES

Sand and salt shall be used sparingly and only when application will produce a positive result. Only dangerous intersections and other hazardous areas will be sanded or salted.

SNOW REMOVAL PROCEDURES

Snowfalls less than 2(two)-3(three) inches will not be plowed from streets unless drifting is occurring. Accumulation of snow on or drifting of streets may dictate variations in snowplowing activity.

Snow removal efforts shall be made on a priority system as follows:

Emergency Snow Routes	- Any hour service by the City Public Services Department.
Residential Streets & Central Business District	- Cleared within 48 hours of end of snow event by City Public Services Department.
Alleys	- Cleared within 48 hours of end of snow event by City Public Services Department.
Public Parking Lots	- Snow moved from parking areas within 72 hours or more of end of snow event by City Public Services
Department	depending on severity of occurrence.
Sidewalks, City responsibility	- Cleared within 48 hours of end of snow event by City Public Services Department.

TOWING VEHICLES ILLEGALLY PARKED

Cars parked on the streets during a snow removal effort may be ticketed and/or towed away. The City Code states:

“9-9-2: PROHIBITED PARKING DURING SNOW EMERGENCY: Upon declaration of the City Manager or his/her designee of a snow emergency, no person shall park, abandon or leave unattended any vehicle on any public street, alley, or City-owned off-street parking area between the hours of ten o’clock (10:00) P.M. and six o’clock (6:00) A.M. unless otherwise specified in the declaration. In the Central Business District (CBD), said prohibition shall be between two o’clock (2:00) A.M. to six o’clock (6:00) A.M. unless specified in the declaration. Every declaration of a snow emergency shall include a statement setting forth the duration of the snow emergency but which duration can be amended by subsequent declaration if unexpected weather or other factors warrant such amendment.”

The Police Department shall contact the Public Services Department and coordinate ticketing and towing operations ahead of the snow removal effort.

BOUNDARY STREET JURISDICTION-RESPONSIBILITY

The City of Storm Lake will not be responsible for any snow removal outside our municipal boundaries (other than at the municipal airport and west marina facility).

SIDEWALKS – PRIVATE RESPONSIBILITY

All sidewalks adjacent to private property are the responsibility of the property owner or occupant. All complaint calls shall be routed to either the Police Department or the Communications Center for complaint follow-up and code enforcement. The City Code states as follows:

“10-1-12: Cleaning: It shall be the duty of the owners or occupants of all lots or lands to keep all sidewalks in front of or adjoining the property owned or occupied by them, free and clear from all snow and ice and other accumulations from the abutting property. In the event that snow and ice or other accumulations from the abutting property be permitted to remain upon any sidewalk for a period of seventy-two (72) hours, the City may, without notice to the property owner, cause the same to be removed, in which case the expense thereof shall be specifically assessed against the abutting property and the owner thereof in an amount not exceeding one and one-half (1½) times the cost of the labor involved, and the Clerk shall certify to the County Treasurer the amount of the assessment.”

A reasonable time period shall be 72 (seventy two) hours for purposes of enforcement. The City lacks available manpower to clear sidewalks so every effort should be made to convince the property owner to clear the sidewalk of ice and snow.

DRIVEWAYS – PRIVATE

City snowplows will not clear private driveways or snow or ice from private property. The snow or ice placed in driveways by city plows is the responsibility of the property owner to remove. Snow or ice from a private driveway or property may not be placed on or pushed across a city street. Please notify the Police Department of any violations of the following section of the city code.

“10-6-1: REMOVAL OF SNOW AND ICE: It shall be unlawful for any person, firm, or corporation to remove snow, ice, and accumulations of snow or ice from private premises and to deposit or place the same upon any public highway, street, avenue, alley, or public park within the City of Storm Lake, Iowa, unless said public park has been designated by the City as a snow depository.

A violation of this Chapter shall constitute a Municipal infraction subject to the penalties and alternative relief authorized by Title 1, Chapter 20 of this Code and by Section 364.22 of the Code of Iowa.”

PLOWING PRIVATE PROPERTY

It is strictly forbidden for a city plow to clear snow or ice from private property unless it must be done to allow emergency vehicles access to private property for ambulance, fire, or police calls.

MAILBOXES

Every attempt will be made by the snowplow operator to clean snow adjacent to mailboxes to allow rural type mail delivery. The snow will only be cleaned, however, from curb line to curb line. The adjacent property owner is responsible for any other snow cleaning and to assure the mailbox is properly installed to withstand snow-clearing efforts by the City. The City will not be responsible for damage to mailboxes unless they were properly constructed and run over by a snowplow. It must be shown that a City plow actually struck the mailbox or the support structure of the mailbox in order for the City to be held responsible for any damage. The City will not be responsible for any damage to mailboxes caused by snow and/or ice or the force of snow and/or ice thrown from the plow during plowing operations.

If a complaint is received regarding a mailbox suspected of being hit by a snowplow, an incident report must be filled out by the citizen issuing the complaint. Incident report forms can be found at City Hall, 620 Erie Street, Monday through Friday, 8am to 5pm.

The Public Services Supervisor will investigate the complaint and notify the citizen of the outcome.

COMMUNICATIONS

All snowplow equipment shall keep in radio communication with the Buena Vista County Communications Center or supervisor at all times. Check the radio before starting duty. Radio communications by snowplow operators shall be between supervisor, equipment, and/or Buena Vista County Communications Center dispatcher.

All communications, whether they are direct, telephone, or radio shall be made in a kind, courteous, businesslike manner.

The supervisor on duty shall periodically keep the City Manager informed on road conditions and snow removal efforts.

The Storm Lake School District may be kept informed on road conditions by the Police Department with information also supplied by the Public Services Department.

The media notification or contact shall be made by the Police Department for inquiries on street conditions or if any street needs to be closed.

CITIZENS COMPLAINTS

All citizen complaints on the snow removal effort shall be routed to the Supervisor on duty. Snowplow operators shall avoid verbal confrontations with citizens. All citizen complaints shall be treated courteously and followed up on promptly.

WORK HOURS AND RULES

Employees will be compensated according to the effective Employee Policy.

All Public Services Department employees who will be out of town November 15th through March 31st on weekends or holidays must notify their supervisor prior to leaving.

All Public Services Department employees are subject to 4(four)-hour duty call, seven days a week from November 1st through March 31st. The 4(four) hours is a planning tool only, and is not a “paid” standby situation. Any vacation requested during this time may be denied and/or suspended if needed.

SAFETY PROCEDURES

Safety is paramount to any snow event. The sole purpose of the snow/ice removal operation is to make the streets, sidewalks, alleys, and parking lots safe for the motoring and walking public. All snowplow operators shall observe the following safety rules.

Check your snow removal equipment prior to leaving the yard including:

All working lights and emergency lights

Radio

Snowplow and frame for damage

Sander

Rearview mirrors

Flags and reflectors

Windshield wipers

Heater and defroster

Oil and gas levels

OBEY ALL TRAFFIC LAWS AND WATCH FOR TRAIN TRAFFIC AT ALL CROSSINGS

Report any non-working equipment immediately.

Use reasonable caution in operation of snow removal equipment.

Do not drive too fast.

Slow down if in cramped quarters with parked cars on a street.

Know your route and any fixed objects covered by snow.

Only travel on wrong side of street if another truck is blocking traffic.

Do not follow cars or other snow removal equipment too closely.

Slow down prior to turning – your plow will tend to push you where it wants to go.

Snowplows are emergency equipment, but they still must obey all traffic laws and give right-of-way to other vehicles.

Notify following truck prior to turning, when plowing in tandem.

ACCIDENTS

Report all accidents immediately to your supervisor and the Police Department. The Police Department will be called to investigate the accident.

CARE AND USE OF EQUIPMENT

The snowplow operator is responsible for routine maintenance on his vehicle. Report any maintenance needed to the supervisor on duty. Check vehicle before and after use for any maintenance needed or damage to equipment. The vehicle is to be refueled at the end of duty shift.

During snow removal emergencies snow removal equipment maintenance will take priority over any other city equipment or vehicles, subject to the discretion of the department supervisor.

No towing or pushing of vehicles, other than city vehicles, shall be allowed. No “jump” starting private vehicles shall be allowed. Rides to private citizens, other than city employees shall not be allowed except for emergency purposes only, i.e.: doctors to surgery, nurses needed for surgery, pharmacist for medicine calls, any other rides must be approved by the City Manager.

SEVERE STORM & DECLARED EMERGENCY MANAGEMENT

In the case of severe storms or state or federally declared disasters as they apply to snow events, and when the city’s emergency operations center is activated, the management of extreme snow emergency incidents will be conducted utilizing the National Incident Management System (NIMS) and Incident Command System (IC).

SNOW AND ICE REMOVAL POLICY
AND PROCEDURE MANUAL
CITY OF STORM LAKE
AIRPORT

**POLICY AND PROCEDURE MANUAL
SNOW AND ICE REMOVAL
CITY OF STORM LAKE
AIRPORT**

POLICY

This document states the normal snow and ice removal policies of the City of Storm Lake Airport. However, under certain circumstances; emergency situations, budgetary concerns, personnel problems, and the unpredictability of weather conditions in Northwest Iowa, these policies may have to be suspended or superseded when conditions warrant.

The City of Storm Lake does not utilize a “Bare Pavement” snow/ice removal policy for City streets and roads but recognizes the unique nature of snow removal on Airport runways and strives for bare pavement on runways and taxiways at the Storm Lake Municipal Airport.

EQUIPMENT AVAILABLE

The primary equipment available to remove snow and ice will be supplied by the City Public Services Department. Equipment available: 2018 SDLG Loader w/blade, snow pusher and bucket; 1999 C-8500 Chevrolet Truck w/plow.

The Storm Lake Public Services Department will also provide additional equipment including but not limited to a Tandem Axel Truck with Snow Plow and Wing Plow, Road Grader with plow and wing plow, and a large snow blower attached to a front end loader when conditions warrant.

MANPOWER AVAILABLE

The primary manpower for snow removal is by the City Public Services Department staff.

COMMUNICATION

The City of Storm Lake, the Airport Commission, and the Fixed Based Operator understand the importance of communication in handling issues at the Storm Lake Municipal Airport.

To facilitate clear communications the following procedures shall apply to communication with regards to this policy.

Other than in the case of an emergency or emergency situation all communication regarding the removal of snow and ice on the runway shall be conveyed the Fixed Based Operator and the Public Services Supervisor.

MONITORING AND NOTIFICATION OF ICE/SNOW EVENTS

The City Public Services Supervisor when inclement weather is approaching shall continuously monitor weather reports. Contacts will be between the Public Services Supervisor and the Fixed Base Operator when plowing will commence and all communication will be handled this way.

SNOW REMOVAL PROCEDURES

Snowfalls less than 1/8" inch will not be plowed from runways unless drifting is occurring. Accumulation of snow on drifting runways may dictate variations in snowplowing activity.

SNOW REMOVAL PRIORITIES

Snow removal efforts shall be made on a priority system as follows:

Main runway and turnarounds w/ Clearance on runway edges of at least 3'	- within 48 hours of snow event ending
Tarmac for fuel dispensing	- within 48 hours of snow event ending
Taxiways	- within 48 hours of snow event ending
Runways with clearance of at least 5'	- within 72 hours of snow event ending
Rest of tarmacs	- within 72 hours of snow event ending
Jet hanger cleared	- within 72 hours of snow event ending
Parking lot	- within 72 hours of snow event ending
Hangers to within one foot of doors	- within 72 hours of snow event ending
Secondary runway	- within 96 hours of snow event ending

NOTE: if plow operator is working he can remove snow from hanger doors upon request

SAFETY PROCEDURES

Safety is paramount to any snow event. All snowplow operators shall observe the following safety rules:

Check your snow removal equipment prior to leaving the yard including:
All working lights and emergency lights
Radio (aircraft capable)

Snowplow and frame for damage
Rearview mirrors
Flags and reflectors
Windshield wipers
Heater and defroster
Oil and gas levels

CARE AND USE OF EQUIPMENT

The snowplow operator is responsible for routine maintenance on his vehicle. Report any maintenance needed to the supervisor on duty. Check vehicle before and after use for any maintenance needed or damage to equipment. The vehicle is to be refueled at the end of duty shift.

REPORT TO: Honorable Mayor and City Council

FROM: Scott Olesen, Building Official

SUBJECT: **Public Hearing On A Proposal To Amend The City Code By Updating The Referenced Electrical Code To The Most Recent Edition**

BACKGROUND: The City Code adopts by reference the National Electrical Code.

The Electrical Code is produced by the National Fire Protection Association, this organization updates the Electrical code on a three year cycle.

At this time, City staff is proposing to update from the 2017 version of the National Electrical Code to the 2020 National Electrical Code.

Updating to the current code editions will bring the City into line with the Electrical Code adopted by the State of Iowa. The National Electrical Code is mandated Statewide. Additionally, the City of Storm Lake is reviewed every three years by the Insurances Services Offices (ISO), which provides ratings for building departments which is then used for setting insurance rates. A City's ISO rating is also used by FEMA in responding to natural disasters. Adopting more current codes will help to maintain our current rating.

Adopting the most current codes is important to keep pace with new materials and techniques in the industry as well.

Council must first hold a Public Hearing on the proposed amendment to the current City Code, and then hold the first reading of the proposed amendment to the City Code which appears later on the Council agenda.

A copy of the proposed Ordinance and the amendments is

attached for your review.

FISCAL IMPACT: Legal fees and publication are estimated to be \$300.00

RECOMMENDATION: Open the public hearing, receive input, close the public hearing.

RESOLUTION NO. 23-R-2020-2021

RESOLUTION SETTING HEARING ON A PROPOSAL TO ADOPT BY REFERENCE PARTS OR ALL OF A CERTAIN STATEWIDE OR NATIONALLY RECOGNIZED STANDARD CODE AND IOWA CODE SECTIONS AS PART OF AN ORDINANCE AMENDING THE CITY'S ELECTRICAL CODE AND PRESCRIBING NOTICE

WHEREAS, the City Council of the City of Storm Lake, Iowa has, from time to time, adopted by reference the provisions of certain statewide or nationally recognized standard codes or portions of such codes by ordinances which identify the codes by subject matter, source, and date, without setting them forth in full, as permitted by Iowa Code Section 380.10;

WHEREAS, the City Council of the City of Storm Lake, Iowa has, from time to time, adopted by reference the provisions of certain portions of the Code of Iowa related to such statewide or nationally recognized standard codes or portions of such codes by ordinances without setting them forth in full, also as permitted by Iowa Code Section 380.10;

WHEREAS, the City's Electrical Code is included among such codes that are adopted in whole or part by reference to statewide or nationally recognized standard codes and portions of the Code of Iowa;

WHEREAS, the City Council now intends to consider adopting an ordinance that amends and updates the City's Electrical Code by reference to an updated statewide or nationally recognized standard code and portions of the Code of Iowa;

WHEREAS, the updated statewide or nationally recognized standard code to be adopted in whole or part by reference is the National Electrical Code, 2020 Edition;

WHEREAS, the Iowa Code sections to be adopted in whole or part by reference are sections 100.1, 100.35, 103.1 and 103.6;

WHEREAS, Iowa Code Section 380.10 requires the Council to hold a public hearing on any proposed standard code or on the portion of the standard code to be adopted by reference and

to hold a public hearing on any portion of the Code of Iowa to be adopted by reference; and

WHEREAS, copies of the standard code or portions thereof and the portions of the Iowa Code proposed to be adopted by reference are available for review by members of the public at the office of the City Clerk of the City of Storm Lake, City Hall, 620 Erie Street, Storm Lake, Iowa.

NOW, THEREFORE, be it hereby resolved that this proposal to adopt by reference parts or all of such statewide or nationally recognized standard code and Iowa Code sections as part of an Ordinance amending the City's Electrical Code shall be scheduled for public hearing at the Council Chambers at City Hall at the regular council meeting scheduled November 16, 2020, at 5:00 p.m. The City Clerk is directed to have a copy of this Resolution published in the Storm Lake Times on a date not less than four (4) days nor more than twenty (20) days prior to said meeting. The City Clerk is further directed to have available in the City Clerk's office at the Clerk's address shown above copies of the standard codes or portions thereof and the portions of the Iowa Code proposed to be adopted by reference for review by members of the public.

Passed and approved this 2nd day of November, 2020.

Michael Porsch, Mayor

ORDINANCE NO. 02-O-2020-2021

ORDINANCE AMENDING CHAPTER 5-4 OF TITLE V OF THE CITY CODE OF THE CITY OF STORM LAKE, IOWA, TITLED AELECTRICAL CODE AND REGULATION OF ELECTRICIANS,@ TO ADOPT BY REFERENCE THE MOST RECENT EDITION OF THE NATIONAL ELECTRICAL CODE, WITH MODIFICATIONS, AND CERTAIN RELATED IOWA CODE SECTIONS

WHEREAS, the City Council of the City of Storm Lake, Iowa, has determined that Chapter 5-4 of Title V of the City Code of the City of Storm Lake, Iowa should be amended to delete references to the 2017 Edition of the National Electrical Code and to adopt by reference of the most recent edition of the National Electrical Code, with certain modifications;

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Storm Lake, Iowa, as follows:

Section 1. Chapter 5-4 of Title V of the City Code of the City of Storm Lake, Iowa, is hereby amended as follows:

a. Section 5-4-3, captioned, “Electrical Code Adopted,” is deleted and, in lieu thereof, the following new Section 5-4-3, captioned “Electrical Code Adopted,” is inserted:

Section 5-4-3 Electrical Code Adopted

After published notice and public hearing as required by law, the National Electrical Code, 2020 Edition, as published and approved by the National Fire Protection Association but as adopted and amended from time to time by the electrical examining board within the division of state fire marshal of the Iowa Department of Public Safety pursuant to Iowa Code Sections 100.1, 100.35, 103.1, and 103.6 and administrative rules pursuant thereto is hereby adopted as the Electrical Code for the City, subject to the modifications made by this Section 5-4-3. The National Electrical Code, 2020 Edition, as so adopted and amended, and Iowa Code Sections 100.1, 100.35, 103.1, and 103.6 are hereby incorporated by reference, subject to the modifications set forth below in this Section 5-4-3. All installations, repair or replacement of electrical equipment within the City shall be made in conformance with the Electrical Code for the City and no permit shall be issued by the Electrical Inspector for such a project if the plans and specifications are not in conformance with that Code.

A copy of the National Electrical Code, 2020 Edition, as adopted and amended by the electrical examining board within the division of state fire marshal of the Iowa Department of Public Safety, shall be maintained in the office of the Building Official and shall be available for public inspection during all normal business hours.

Notwithstanding the provisions of the National Electrical Code, 2020 Edition, as adopted and amended by the electrical examining board within the division of state fire marshal of the Iowa Department of Public Safety, the following provisions shall apply:

(A) All business buildings (either erected, altered or converted for such purpose), public buildings, schools, churches, oil stations, warehouses, bulk oil plants, institutional

buildings, apartment houses and all buildings except dwelling houses of not more than two (2) families, shall be wired throughout with rigid conduit, armored cable, flexible steel conduit, metal raceway, electrical metallic tubing, metal clad cable, or electrical non-metallic tubing in accordance with NEW requirements, provided, however, that armored cable or flexible steel conduit may be used only where it is impractical to use rigid conduit or electrical metallic tubing, and further provided that in remodeling work in the buildings above mentioned, metal surface raceway may be used in remodeling, where, in the opinion of the Electrical Inspector, it is impractical to install rigid conduit or electrical metallic tubing. However, in all structures having four (4) or more dwelling units, a feeder must be installed to each dwelling unit branch circuit panel and run in conduit or electric metallic tubing. Each individual dwelling unit may be wired in metallic armored cable (BX) or non-metallic sheath cable (Romex).

(B) Basements of all dwelling houses shall be wired in rigid conduit or electric metallic tubing with the same provision for the use of armored cable or flexible steel conduit as provided in the preceding paragraph, provided that where the entrance switch or panel is on a floor other than the basement, the conduit must be continuous from such switch or panel and connect to the basement conduit. The balance of buildings used as dwelling houses for not more than two (2) families and private garages may be wired with non-metallic sheathed cable.

(C) All sign boards or poster boards shall be wired in rigid conduit, electric metallic tubing, or electrical non-metallic tubing.

Section 2. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

Section 3. This ordinance shall be in effect following its passage, approval, and publication as provided by law.

PASSED AND APPROVED this _____ day of _____, 2020.

Michael Porsch, Mayor

City of Storm Lake
PO Box 1086
Storm Lake, IA 50588
p (712) 732-8000
f (712) 732-4114

REPORT TO: Honorable Mayor and City Council

FROM: Brian Oakleaf, Finance Director

SUBJECT: **Motion To Approve FY 2020 Urban Renewal Report**

BACKGROUND: Each year, the City Council must approve the Annual Urban Renewal Report before December 1. If the City does not complete this report, we will not be able to adopt the yearly budget.

This report covers the five Urban Renewal Areas with reportable activity during the reporting timeframe:

Storm Lake Industrial Park which encompasses the area of Project AWAYSIS, the McKenna Addition, industrial areas from Flindt Drive along Expansion Blvd. to Hwy 71, the condo site, and development areas along Hwy 7 from Flindt Drive to Hwy 71.

North #1 Bargloff Urban Renewal area includes Bargloff Roads, Pizza Ranch and Dollar Tree.

LMI #3 Housing Urban Renewal Area includes The Reserves housing development.

LMI #4 Housing Urban Renewal Area includes the 10th Street Townhomes.

Storm Lake 3rd Addition - This was the fifth reportable year for this area and this current fiscal year will be the last. Once all of the expenditures and tax revenues are finalized, we will establish the required LMI housing fund.

FISCAL IMPACT: Each section of the report gives an in-depth reporting of all activity in the area, including associated debt, expenses, rebate payments and revenues. Please note that, for the purposes of

this report, "Debt" includes not only the principal on associated Bonds, but also the anticipated TOTAL interest due for the life of the Bond, any future rebate agreement Not-To-Exceed amounts as well as any legal, infrastructure or miscellaneous costs that are treated as internal loans, and therefore, "debt" the City owes itself.

For 2020, we collected \$723,955 of Increment Revenue and had just over \$1.3M in Urban Renewal Area Expenditures, of which only \$94,981 was related to Rebates.

A final item of note is the listed "Increment" for each area. The following numbers represent the total taxable value each area has increased since the respective year they were designated as Urban Renewal areas and specific TIF districts formed:

Storm Lake Industrial Park #1 - Original Expansion Blvd.
Industrial Park

Taxable Value Increase since 2007: \$6,617,639

Storm Lake Industrial Park #2 - Project AWAYSIS

Taxable Value Increase since 2003: \$9,991,462

Bargloff #1 - Notable for Harvest International

Taxable Value Increase since 2010: \$4,041,423

Bargloff #2-#4&6

Taxable Value Increase since 2011: \$1,008,482

Bargloff #5 - Notable for Pizza Ranch

Taxable Value Increase since 2013: \$1,036,803

Bargloff #7 - Notable for Dollar Tree

Taxable Value Increase since 2007: \$890,090

LMI #3 The Reserves

Taxable Value Increase since 2007: \$360,000

LMI #4 10th Street Townhomes

Taxable Value Increase since 2007: \$675,000

3rd Addition

Taxable Value Increase since 2016: \$103,346

This represents over \$27.5 million in taxable value increase, nearly \$4 million dollars in increase over the previous 2 years.

The South School URA is not listed as no Incremental Revenue has been received, but we should see movement in the next few years.

RECOMMENDATION: Review and approve the FY 2020 Urban Renewal Report for submission to the State of Iowa.

REPORT TO: Honorable Mayor and City Council

FROM: Keri Navratil, City Manager

SUBJECT: **Public Hearing to Amend City Code Chapter 5-10 Property Maintenance**

BACKGROUND: Amending City Code Chapter 5-10 Property Maintenance to allow for alternate paving materials to be used to construct a parking lot for a non-conforming building that is not required to provide off-street parking. Items to note in the amendment:

- Alternate paving material must follow the Iowa Statewide Urban Design and Specifications
- Hard surface paving in concrete or asphalt will need to occur three years after a permit is issued.
- A daily fine/penalty will occur if hard surface paving is not complete after three years of permit being issued

FISCAL IMPACT: N/A

RECOMMENDATION: Open Public Hearing

ORDINANCE NO. 03-O-2020-2021

ORDINANCE AMENDING CHAPTER 5-10 OF TITLE V OF THE CITY CODE OF THE CITY OF STORM LAKE, IOWA, TITLED APROPERTY MAINTENANCE CODE,@ TO REVISE REQUIREMENTS RELATING TO THE PAVING OF VEHICLE PARKING AREAS

WHEREAS, the City Council of the City of Storm Lake, Iowa, has determined that Section 5-10-7 of Chapter 5-10 in Title V of the City Code of the City of Storm Lake, Iowa should be amended to provide for a limited exception to the requirement that all off-street vehicular parking areas be hard surfaced.

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Storm Lake, Iowa, as follows:

Section 1. Chapter 5-10 in Title V of the City Code of the City of Storm Lake, Iowa, is hereby amended as follows:

a. Section 5-10-7(D)(1), captioned, “Definitions,” is amended to insert the following two new definitions between the definition for “Non-Hard-Surfaced driveway” and the definition for “Approach”:

Hard-surfaced parking area, as used in Section 5-10-7(D)(8), shall mean any vehicle parking area that is paved with a hard surface, including concrete, asphalt, or paving stones, installed and maintained according to City specifications.

Alternate material, as used in Section 5-10-7(D)(8), shall mean a material, other than concrete, asphalt, or paving stones, which, under the Statewide Urban Design and Specifications (SUDAS), is authorized or suitable for the construction of a vehicle parking area that is not a hard-surfaced parking area.

b. Section 5-10-7(D)(8) is deleted and, in lieu thereof, the following new Section 5-10-7(D)(8) is inserted:

8. Any vehicle parking area constructed after the adoption of this Ordinance shall be a hard-surfaced parking area except, under the conditions specified below in this Section 5-10-7(D)(8), a vehicle parking area may be constructed of an alternate material, which parking area may remain in place for a period of not more than three years from the date of the City-issued permit authorizing the construction of the vehicle parking area using such alternate material; provided, however, that, by the end of such three-year period, one hundred percent of the area covered by the parking area made of an alternate material shall be constructed, re-constructed or converted into a hard-surfaced parking area. All of the following conditions must be satisfied before the use of an alternate material in the construction of a vehicle parking area is authorized for a three-year period under the provisions of this section:

(a) The parking area to be constructed will be situated on one or more real

estate lots located in a Community Commercial Zoning District;

(b) The parking area will serve a business operated in a building situated on the same real estate lot or on an abutting real estate lot or lots;

(c) If the parking area is to be constructed on one or more real estate lots abutting the real estate lot or lots on which the building housing the business is situated, the abutting real estate lots on which the building housing the business is situated and on which the parking area is to be constructed are under common ownership and the owner, for himself, herself, or itself, and for the owner's successors in interest, agrees in an instrument approved by the Enforcement Officer and filed of record in the Buena Vista County, Iowa Recorder's office that such abutting real estate lots will remain under common ownership in perpetuity and will only be transferred together, as if the real estate lots comprised but one real estate lot, unless and until the City agrees otherwise in a written instrument recorded in the office of the Buena Vista County, Iowa Recorder;

(d) Each building housing such business is a nonconforming structure that nonetheless is permitted to exist under the City of Storm Lake's zoning code;

(e) The use of such building or buildings must be a conforming retail use under the City of Storm Lake's zoning code;

(f) The business is not required by the City's zoning code to have off-street parking but off-street parking needs to be constructed for the convenience of the patrons of such business, the safety of the public, or both;

(g) The parking area design satisfies the requirements of the Americans with Disabilities Act and the post-construction storm water provisions of the City Code;

(h) The construction of the parking area is authorized by the issuance of a permit as provided herein.

As used in the above-listed conditions, the term "business" includes any authorized retail use.

The failure of the owner of the real estate lot or lots who applies for the permit required in this Section 5-10-7(D)(8) or any subsequent owner of such real estate lot or lots to timely complete construction of the hard-surfaced parking area as required in this Section 5-10-7(D)(8), after the construction or partial construction of a parking area using an alternate material on such real estate lot or lots, shall constitute a municipal infraction punishable by a civil penalty of \$250.00. Each day that construction of the hard-surfaced parking area is not completed after the three-year period specified above shall constitute a separate and distinct infraction. The provision of Section 5-10-8(A), the abatement provisions contained in the second sentence of Section 5-10-8(B), captioned "INSPECTIONS, the provisions of Section 5-10-8 Paragraphs (C), captioned "VOLUNTARY ABATEMENT," (D), captioned "EMERGENCY CONDITION," (E), captioned "REPEAT OFFENSE," (F), captioned "NOTICE," (G), captioned "ABATEMENT REMEDIES AND PENALTIES, and (H), captioned "EMERGENCY ABATEMENT PROCEDURE," and the powers of the Property Maintenance Appeal Board enumerated in subparagraphs 2 and 3 of Section 5-10-8 Paragraph I,

captioned “APPEAL,” shall not apply to municipal infractions arising under this Section 5-10-7(D)(8). The Enforcement Officer shall file a notice, in affidavit form, in the Buena Vista County, Iowa Recorder’s office before the transfer of a real estate lot or lots on which a parking area is constructed or partially constructed using an alternate material pursuant to this Section 5-10-7(D)(8), which notice shall set forth:

- (aa) The legal description of such real estate lot or lots;
- (bb) The fact that Section 5-10-7(D)(8) of the Storm Lake City Code requires the construction of a hard-surfaced parking area in compliance with the City’s design standards and specifications on such real estate lot by a date to be specified in the affidavit, which date shall be three years from the date of the City-issued permit for the construction of the parking area using an alternate material;
- (cc) The fact that any owner of such real estate lot is subject to the requirement to complete the construction of the hard-surfaced parking area if it has not been completed by a prior owner;
- (dd) The fact that failure to timely complete the construction of the hard-surfaced parking area is a municipal infraction punishable by a civil penalty of \$250.00 for each infraction and that each day that such construction is not completed after the three-year period specified in the affidavit shall constitute a separate and distinct infraction;
- (ee) The fact that the affidavit is made pursuant to Section 5-10-7(D)(8) of the City Code of the City of Storm Lake, Iowa.
- (ff) The name and title of the Enforcement Officer making the affidavit.

Upon a determination by the Enforcement Officer that the hard-surfaced parking area has been completed, the Enforcement Officer shall file an affidavit with the Buena Vista County Recorder describing the real estate upon which the hard-surfaced parking area was constructed, referencing the Notice described above to which the affidavit relates by the date of the recording of the Notice and the document number of the Notice assigned by the Recorder, setting forth the fact that the hard-surfaced parking area was completed and the date of such completion.

Before beginning construction of a parking area pursuant to the provisions of this Section 5-10-7(D)(8), the owner of a real estate lot or lots desiring to construct a parking area thereon using an alternate material shall apply to the City of Storm Lake in writing on a City-approved form for a permit to do so. The application shall be submitted to the City Clerk. The application shall include a description of the design of the parking area using an alternate material and a description of the design of the hard-surfaced parking area that will be developed within the three-year period specified herein, as well as such other information the City deems relevant to the City’s determination whether or not to issue the permit. The Enforcement Officer shall issue a permit if the City determines that the conditions specified in subparagraphs (a) through (g) of this Section 5-10-7(D)(8) are satisfied.

Section 2. All ordinances or parts of ordinances in conflict with the provisions of this

ordinance are hereby repealed.

Section 3. This ordinance shall be in effect following its passage, approval, and publication as provided by law.

PASSED AND APPROVED this _____ day of _____, 2020.

REPORT TO: Honorable Mayor and City Council

FROM: Keri Navratil, City Manager

SUBJECT: **Ordinance Amending City Code Chapter 5-10 Property Maintenance**

BACKGROUND: Amending City Code Chapter 5-10 Property Maintenance to allow for alternate paving materials to be used to construct a parking lot for a non-conforming building that is not required to provide off-street parking. Items to note in the amendment:

- Alternate paving material must follow the Iowa Statewide Urban Design and Specifications
- Hard surface paving in concrete or asphalt will need to occur three years after a permit is issued.
- A daily fine/penalty will occur if hard surface paving is not complete after three years of permit being issued

FISCAL IMPACT: N/A

Amended Ordinance	Ordinance

ORDINANCE NO. _____

ORDINANCE AMENDING CHAPTER 5-10 OF TITLE V OF THE CITY CODE OF THE CITY OF STORM LAKE, IOWA, TITLED APROPERTY MAINTENANCE CODE,@ TO REVISE REQUIREMENTS RELATING TO THE PAVING OF VEHICLE PARKING AREAS

WHEREAS, the City Council of the City of Storm Lake, Iowa, has determined that Section 5-10-7 of Chapter 5-10 in Title V of the City Code of the City of Storm Lake, Iowa should be amended to provide for a limited exception to the requirement that all off-street vehicular parking areas be hard surfaced.

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Storm Lake, Iowa, as follows:

Section 1. Chapter 5-10 in Title V of the City Code of the City of Storm Lake, Iowa, is hereby amended as follows:

a. Section 5-10-7(D)(1), captioned, “Definitions,” is amended to insert the following two new definitions between the definition for “Non Hard-Surfaced driveway” and the definition for “Approach”:

Hard-surfaced parking area, as used in Section 5-10-7(D)(8), shall mean any vehicle parking area that is paved with a hard surface, including concrete, asphalt, or paving stones, installed and maintained according to City specifications.

Alternate material, as used in Section 5-10-7(D)(8), shall mean a material, other than concrete, asphalt, or paving stones, which, under the Statewide Urban Design and Specifications (SUDAS), is authorized or suitable for the construction of a vehicle parking area that is not a hard-surfaced parking area.

b. Section 5-10-7(D)(8) is deleted and, in lieu thereof, the following new Section 5-10-7(D)(8) is inserted:

8. Any vehicle parking area constructed after the adoption of this Ordinance shall be a hard-surfaced parking area except, under the conditions specified below in this Section 5-10-7(D)(8), a vehicle parking area may be constructed of an alternate material, which parking area may remain in place for a period of not more than three years from the date of the City-issued permit authorizing the construction of the vehicle parking area using such alternate material; provided, however, that, by the end of such three-year period, one hundred percent of the area covered by the parking area made

of an alternate material shall be constructed, re-constructed or converted into a hard-surfaced parking area. All of the following conditions must be satisfied before the use of an alternate material in the construction of a vehicle parking area is authorized for a three-year period under the provisions of this section:

(a) The parking area to be constructed will be situated on one or more real estate lots located in a Community Commercial Zoning District;

(b) The parking area will serve a business operated in a building situated on the same real estate lot or on an abutting real estate lot or lots;

(c) If the parking area is to be constructed on one or more real estate lots abutting the real estate lot or lots on which the building housing the business is situated, the abutting real estate lots on which the building housing the business is situated and on which the parking area is to be constructed are under common ownership and the owner, for himself, herself, or itself, and for the owner's successors in interest, agrees in an instrument approved by the Enforcement Officer and filed of record in the Buena Vista County, Iowa Recorder's office that such abutting real estate lots will remain under common ownership in perpetuity and will only be transferred together, as if the real estate lots comprised but one real estate lot, unless and until the City agrees otherwise in a written instrument recorded in the office of the Buena Vista County, Iowa Recorder;

(d) Each building housing such business is a nonconforming structure that nonetheless is permitted to exist under the City of Storm Lake's zoning code;

(e) The use of such building or buildings must be a conforming retail use under the City of Storm Lake's zoning code;

(f) The business is not required by the City's zoning code to have off-street parking but off-street parking needs to be constructed for the convenience of the patrons of such business, the safety of the public, or both;

(g) The parking area design satisfies the requirements of the Americans with Disabilities Act and the post-construction storm water provisions of the City Code;

(h) The construction of the parking area is authorized by the issuance of a permit as provided herein.

As used in the above-listed conditions, the term "business" includes any authorized retail use.

The failure of the owner of the real estate lot or lots who applies for the permit required in this Section 5-10-7(D)(8) or any subsequent owner of such real estate lot or lots to timely complete construction of the hard-surfaced parking area as required in this Section 5-10-7(D)(8), after the construction or partial construction of a parking area using an alternate material on such real estate lot or lots, shall constitute a municipal infraction punishable by a civil penalty of \$250.00. Each day that construction of the

hard-surfaced parking area is not completed after the three-year period specified above shall constitute a separate and distinct infraction. The provision of Section 5-10-8(A), the abatement provisions contained in the second sentence of Section 5-10-8(B), captioned "INSPECTIONS, the provisions of Section 5-10-8 Paragraphs (C), captioned "VOLUNTARY ABATEMENT," (D), captioned "EMERGENCY CONDITION," (E), captioned "REPEAT OFFENSE," (F), captioned "NOTICE," (G), captioned "ABATEMENT REMEDIES AND PENALTIES, and (H), captioned "EMERGENCY ABATEMENT PROCEDURE," and the powers of the Property Maintenance Appeal Board enumerated in subparagraphs 2 and 3 of Section 5-10-8 Paragraph I, captioned "APPEAL," shall not apply to municipal infractions arising under this Section 5-10-7(D)(8). The Enforcement Officer shall file a notice, in affidavit form, in the Buena Vista County, Iowa Recorder's office before the transfer of a real estate lot or lots on which a parking area is constructed or partially constructed using an alternate material pursuant to this Section 5-10-7(D)(8), which notice shall set forth:

(aa) The legal description of such real estate lot or lots;

(bb) The fact that Section 5-10-7(D)(8) of the Storm Lake City Code requires the construction of a hard-surfaced parking area in compliance with the City's design standards and specifications on such real estate lot by a date to be specified in the affidavit, which date shall be three years from the date of the City-issued permit for the construction of the parking area using an alternate material;

(cc) The fact that any owner of such real estate lot is subject to the requirement to complete the construction of the hard-surfaced parking area if it has not been completed by a prior owner;

(dd) The fact that failure to timely complete the construction of the hard-surfaced parking area is a municipal infraction punishable by a civil penalty of \$250.00 for each infraction and that each day that such construction is not completed after the three-year period specified in the affidavit shall constitute a separate and distinct infraction;

(ee) The fact that the affidavit is made pursuant to Section 5-10-7(D)(8) of the City Code of the City of Storm Lake, Iowa.

(ff) The name and title of the Enforcement Officer making the affidavit.

Upon a determination by the Enforcement Officer that the hard-surfaced parking area has been completed, the Enforcement Officer shall file an affidavit with the Buena Vista County Recorder describing the real estate upon which the hard-surfaced parking area was constructed, referencing the Notice described above to which the affidavit relates by the date of the recording of the Notice and the document number of the Notice assigned by the Recorder, setting forth the fact that the hard-surfaced parking area was completed and the date of such completion.

Before beginning construction of a parking area pursuant to the provisions of this Section 5-10-7(D)(8), the owner of a real estate lot or lots desiring to construct a parking area thereon using an alternate material shall apply to the City of Storm Lake in writing on a City-approved form for a permit to do so. The application shall be submitted to the City Clerk. The application shall include a description of the design of the parking area using an alternate material and a description of the design of the hard-surfaced parking area that will be developed within the three-year period specified herein, as well as such other information the City deems relevant to the City's determination whether or not to issue the permit. The Enforcement Officer shall issue a permit if the City determines that the conditions specified in subparagraphs (a) through (g) of this Section 5-10-7(D)(8) are satisfied.

Section 2. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

Section 3. This ordinance shall be in effect following its passage, approval, and publication as provided by law.

PASSED AND APPROVED this ____ day of _____, 2020.

REPORT TO: Honorable Mayor and City Council

FROM: Keri Navratil, City Manager

SUBJECT: **Resolution No. 26-R-2020-2021 Setting Public Hearing on the proposed sale of real estate to Tyson Fresh Meats (Wastewater Treatment Plant)**

BACKGROUND: Since the early 1980's Tyson Fresh Meats currently leases the City's old wastewater treatment plant. The plant is in need of significant upgrades in order to meet their new treatment permit levels. Due to the investment, Tyson Fresh Meats would prefer to own the treatment plant

Rally Appraisal LLC conducted an appraisal on the property to determine a sale price. Due to the specific use of the property, the required investment to continue operation due to current regulations, and costs associated with the remediating the site for an alternative use, and residual value upon conversion of alternative use, there would be minimal interest in the property outside the current tenant.

FISCAL IMPACT: \$1.00

RECOMMENDATION: Resolution No. 26-R-2020-2021 Set Public Hearing for 5:00 p.m. on December 7, 2020 in City Council Chambers

RE: 1234 630th Street, Storm Lake, Iowa

Dear Ms. Keri Navratil:

As requested, I have made an inspection and completed an appraisal of the above referenced property.

This appraisal is being presented in a narrative Appraisal Report Format which is intended to comply with the reporting requirements set forth under Standards Rule 2-2 (a) of the Uniform Standards of Professional Appraisal Practice (USPAP) for an Appraisal Report. As such, it presents only summary discussions of the data, reasoning, and analyses that were used in the appraisal process to develop the appraiser's opinion of value. Supporting documentation concerning data, reasoning, and analyses is retained in the appraiser's files. The depth of discussion contained in this report is specific to the needs of the client and for the intended use as stated on the following page. The appraiser is not responsible for unauthorized use of this report.

This report is prepared for the client, the City of Storm Lake, for asset management decisions. This report represents my analysis and conclusion of the estimated "as is" market value of the fee simple estate in the subject property as of the inspection date of February 19, 2020. The following report complies with the standards and regulations outlined in Title XI of the Federal Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA).

The indicated Market Value is based upon the enclosed data, and contingent upon the limiting conditions set forth in the Scope of Work section of this appraisal.

This transmittal letter is considered a part of the appraisal report. Please contact me if you have any questions.

Sincerely,

Clinton D. Miller, MAI
Certified General Appraiser, CG02604 (Iowa)

Exposure Period:	12-18 months
Effective Date of Market Value:	February 17, 2020 "As Is"
Property Rights Appraised:	Fee Simple Estate
Cost Approach Indication:	Not Completed
Sales Comparison Approach:	\$1.00
Income Capitalization Approach:	Not Completed
Final Indicated Market Value:	\$1.00

SCOPE OF REPORT

The scope of the appraisal encompasses the necessary research and analysis to prepare a report in accordance with the intended use, the Standards of Professional Practice of the Appraisal Institute, and the Uniform Standards of Professional Appraisal Practice Foundation. In regard to the subject property, this involved the following steps:

1. This appraisal is prepared for the client, City of Storm Lake, for asset management decisions. The purpose of this appraisal is to estimate the "as is" market value of the fee simple estate of the subject property as of the date of inspection on February 19, 2020.

The appraiser is estimating the market value of the real estate only. No inside or outside equipment was valued.

2. The property was inspected on February 19, 2020. Clinton D. Miller inspected the interior and exterior of the subject property. This was essentially a walk through inspection. The property measurements were compared with information from the assessor's records.

The appraiser is not a building or environmental inspector. An inspection was made of the visible areas at the time of the inspection. The site is assumed to be stable and free of any environmental contamination, the building improvements are assumed to be sound, and there are no encroachments by the subject property or on the subject property unless otherwise stated in this report.

The appraiser is not qualified to:

- Make a determination whether or not the subject property meets current ADA guidelines
- Make a determination whether or not the subject property has any environmental contamination
- Survey the subject property to verify actual size or to make a determination as to whether or not the subject property encroaches on another property or another property is encroaching on the subject property
- Determine the condition of the mechanical or other structural systems of the subject property

If there is any question regarding any of these issues it is the responsibility of the client to obtain verification from qualified sources.

3. Regional, city, county and neighborhood data were based upon information available from the city, county and Iowa Economic Development.
4. Information about the subject property was obtained by inspecting the interior and exterior of the property, interviews, and public records.

-
5. In estimating the highest and best use of the property, an analysis was made of data compiled in the three steps noted above. In addition, a study of the market in the subject area has been made to determine the economic feasibility of the subject property.
 6. In developing approaches to value, the market data were collected from the assessor's office files, other appraisers, realtors, or persons knowledgeable to the subject property and marketplace. Attempts were made to confirm sales data with at least one of the parties involved in the transaction.
 7. After assembling and analyzing the data defined in the scope of the appraisal, a final estimate of market value is estimated.

The sales comparison is most applicable and completed within the appraisal herein.

8. The appraisal assignment is based on the assumptions/conditions outlined below. Pursuant to the requirement within Uniform Standards of Professional Appraisal Practice (USPAP, 2020-2021 Edition) Standards Rule 2-2 (a) (xi), it is stated here that the use of these extraordinary assumptions and/or hypothetical conditions may affect the assignment results.

Extraordinary Assumption: an assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions and conclusions.

Comment: Uncertain information might include physical, legal, or economic characteristics of the subject property; or conditions external to the property, such as market conditions or trends; or the integrity of data used in an analysis.

The appraiser is making the following extraordinary assumptions:

- The subject property meets or exceeds all state and local code requirements.
- The subject property has a valid occupancy or use permit for the intended use of the subject property.
- All information supplied to the appraiser is accurate, complete, and not misleading.

COMPETENCY PROVISION

Mr. Miller is a Certified General Real Property Appraiser currently certified by the State of Iowa.

Mr. Miller has a B.A. in both real estate and finance from the University of Northern Iowa and has also taken appraisal courses in theory and application through the Appraisal Institute and Van Education. The appraiser is also a Designated Member of the Appraisal Institute.

The appraiser has performed appraisals on this type of property and a variety of other property types similar to the subject property. A list of qualifications and a list of various property types appraised are in the addendum section of this report.

CERTIFICATIONS

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- I have no present or prospective interest in the property that is the subject of this report, and no personal interest or bias with respect to the parties involved.
- I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal practice.
- The reported analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Code of Professional Ethics and Standards of the Professional Appraisal Practice of the Appraisal Institute.
- The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
- Mr. Clinton D. Miller has made a personal inspection of the property that is the subject of this report.
- No one provided significant real property appraisal assistance to the person(s) signing this certification.
- As of this date, I, Clinton D. Miller, have completed the continuing education requirements of the Appraisal Institute for Designated Members.
- I have performed no services, as an appraiser or in any other related capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I, Clinton D. Miller, am licensed as a Certified General Real Property Appraiser under License number CG02604, granted by the State of Iowa, expires June 30, 2021.
- Valuation Date: February 19, 2020 "As-Is"
- Fee Simple Valuation Estimate: \$1.00

Appraiser's Name: Clinton D. Miller, MAI
Certified General Real Property Appraiser

Estimated Marketing Time: 12-18 months

Market data indicates the anticipated marketing time for the subject is 12-18 months. This is based on historical marketing periods of other similar properties that have sold in this market and other similar market areas. However, the list price and the marketing effort are paramount to getting a sale within the indicated marketing time. Properties which are over-priced often experience extended marketing times.

Exposure Time: is defined as “the estimated length of time the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal. Exposure time is a retrospective opinion based on an analysis of past events assuming a competitive and open market.¹

In the case of the subject, exposure time is determined to be **12-18 months**.

¹ *Uniform Standards of Professional Appraisal Practices & Advisory Opinions, 2020-2021 Edition*, Appraisal Standards Board, The Appraisal Foundation, page 4.

DEFINITIONS OF VALUE, PROPERTY RIGHTS APPRAISED AND FACTUAL DESCRIPTIONS

APPRAISAL²:

(noun) the act or process of developing an opinion of value; an opinion of value.
(adjective) of or pertaining to appraising and related functions such as appraisal practice or appraisal services.

Comment: An appraisal is numerically expresses as a specific amount, as a range of numbers, or as a relationship (e.g., not more than, not less than) to a previous value opinion or numerical benchmark (e.g., assessed value, collateral value).

TYPE OF REPORT:

According to the Uniform Standards of Professional Appraisal Practice, Standards Rule 2-2, an appraisal report must be prepared under one of the following two options: Appraisal Report or Restricted Appraisal Report. These two report types are described as follows:

Appraisal Report:

Should contain a summary of all information significant to the solution of the appraisal problem. “Summarize” is the distinguishing term related to the Appraisal Report.

Restricted Appraisal Report:

Should contain a brief statement of information significant to the solution of the appraisal problem. “State” is the distinguishing term related to the Restricted Appraisal Report.

This is an **Appraisal Report**, which is intended to comply with the reporting requirements set forth under Standards Rule 2-2 (a) of the Uniform Standards of Professional Appraisal Practice (USPAP) for an Appraisal Report. As such, it presents only summary discussions of the data, reasoning, and analyses that were used in the appraisal process to develop the appraiser’s opinion of value. Supporting documentation concerning data, reasoning, and analyses is retained in the appraiser’s files. The depth of discussion contained in this report is specific to the needs of the client and for the intended use as stated on the following page.

² *Uniform Standards of Professional Appraisal Practice and Advisory Opinions, 2020-2021 Edition*, Appraisal Standards Board, The Appraisal Foundation, page 3.

DEFINITIONS OF VALUE, PROPERTY RIGHTS APPRAISED AND FACTUAL DESCRIPTIONS

PURPOSE OF APPRAISAL:

The purpose of this appraisal is to estimate the market value of the fee simple interest in the subject property, "as is", as of the date of inspection, February 19, 2020. The appraiser is valuing the real estate only.

INTENDED USER and INTENDED USE:

This appraisal is prepared for the client, City of Storm Lake, for asset management decisions.

PROPERTY RIGHTS APPRAISED:

There are three primary types of property rights, which may be appraised. They are Fee Simple Estate, Leased Fee Estate, and the Leasehold Estate. They are defined as follows:

Fee Simple Estate: Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat.

Leased Fee Estate: The ownership interest held by the lessor, which includes the right to receive the contract rent specified in the lease plus the reversionary right when the lease expires.

Leasehold Estate: The right held by the lessee to use and occupy real estate for a stated term and under the conditions specified in the lease.

The subject property is currently encumbered by a lease for \$1.00/year for two more years. That said, the client has indicated that the lessee is interested in purchasing the property and would like the **fee simple estate** be valued herein. The original lease was included within addendum.

Date of Value:

February 19, 2020 "As Is"

DEFINITIONS OF VALUE, PROPERTY RIGHTS APPRAISED AND FACTUAL DESCRIPTIONS

DEFINITION OF MARKET VALUE:

Market value, as herein used, is defined as follows:

The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- 1) Buyer and seller are typically motivated;
- 2) Both parties are well informed or well advised, and acting in what they consider their own best interests;
- 3) A reasonable time is allowed for exposure in the open market;
- 4) Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
- 5) The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.³

There are no adverse encroachments or encumbrances that negatively effect on the subject property.

Lease Agreement:

IBP originally had a 20-year lease with (1) 20-year option for \$1.00/year that commenced on 4/20/1982. IBP, now Tyson Foods, exercised the 20-year option which will expire 4/20/2022. Over the course of lessee's tenure at the property, there have been a number of leasehold improvements to the equipment, buildings, and site in order to practice modern waste water techniques and conform to current State and DNR regulations. Per a Tyson Foods' official, the property will require a substantial upgrade that will cost \$10,000,000 +/- to conform to current government regulation. As such, Tyson Foods would rather own the property rather than try to negotiate another lease.

THE APPRAISAL PROCESS

The appraisal process is the orderly gathering, organizing and analyzing of factual data, in order to estimate a logical conclusion of a defined value as of a given date. The valuation process begins when an appraiser fully identifies the appraisal problem and ends when he/she reports the solution to the client. The valuation process is accomplished by following specific steps; the number of steps used depends on the nature of the appraisal assignment and the data available.

The first step is defining the appraisal problem, which involves determining the following considerations:

1. Identification of real estate;
2. Identification of the property rights to be appraised
3. Date of value estimate;
4. Use of appraisal
5. Definition of value
6. Other limiting conditions

Once the appraisal problem is defined, the appraiser collects and analyzes data that affects the market value of the subject property. The necessary data to be gathered included general data for the region, community and neighborhood in which the subject property is located. This general data includes; social economic, governmental, and environmental information. Also, specific data is gathered for the subject property and possible comparable properties. This specific data includes; site and improvements, sales and listings, costs and depreciation, income/expense and capitalization rate information. It is most desirable to use specific data within close proximity of the property to be appraised, but is sometimes necessary to search beyond neighborhood or community boundaries in order to find sufficient and/or reliable data. The examination of the data should lead to an understanding of the interrelationships specific area. It also provides raw data from which to extract numerical measurements and other evidence of market trends.

The next step in this process is to analyze and estimate the highest and best use for the subject site, as vacant, and as improved (in the case of improved properties).

Then the specific data is analyzed, and used in one or more of the three standard approaches to value that are generally recognized by the appraisal community. The most common titles for these approaches are; The Cost Approach, The Direct Sales Comparison Approach, and The Income Approach.

The final step in the appraisal process is the reconciliation of the value indications given by each of the applied approaches into a single dollar figure. When all three approaches are used, the appraiser examines the spread among the three, separate indications. A wide spread may indicate that one or more of the approaches is not truly applicable to the appraisal problem. The appraiser must always consider the relative dependability and applicability of each approach in reconciling the value indications into a final estimate of defined value. In the reconciliation the appraiser considers the following critical factors; which of the approaches is based upon the greatest amount of reliable data, which approach most closely reflects the actual attitudes of typical buyers and sellers, and which approach (s) is most pertinent given the objective of the appraisal. The reconciliation also provides an opportunity to resolve variations and inconsistencies among the value indications and the methods with which they were derived.

The report of defined value provides the client with a summary of the data analyzed, the methods used, and the reasoning that led to the value estimate.

DESCRIPTIONS

REGIONAL MAP

STATE DATA

LOCATION:

The State of Iowa is located in the central part of the United States, or that part commonly known as the Midwest. It is bordered on the east by the Mississippi River, the Missouri River on the west, the State of Missouri on the south, and the State of Minnesota on the north. Des Moines is the State Capital, and it is located in central Iowa.

GOVERNMENT:

Iowa has a 2-house legislative body, both of which are elected on the basis of population. Iowa is represented in the U.S. Congress by two senators and four representatives. The state has six electoral votes.

TAX STRUCTURE:

The state levies a 6% sales tax on retail goods and services (food/drugs exempt), a motor fuel tax, and a tax on income, both private and corporate.

OVERALL POPULATION TRENDS:

The urban population (incorporated cities with 2,500 or more residents) of Iowa has generally increased most decades from 1940 through 2010. Iowa's rural population, on the other hand, decreased each decade since 1940. That general rural decline hides three distinct trends, however. The farm population decreased substantially. The total number living in small towns remained remarkably stable. And those living in the country (but not on farms nor in small towns) gained throughout the last half-century.

Trends in segments of the urban population are not as distinct. Growth has not varied greatly by size of urban place, although Iowa's central cities have not changed much in recent decades while smaller urban cities have been more likely to gain.

Iowa's population experienced growth of 4.1% since 2000, bringing the total state population up to 3,046,355. This growth kept Iowa ranked at 30th overall in population. Projections show that Iowa's population is expected to grow at similar rate experienced in last decade for the next 30 years.

TRANSPORTATION:

Iowa is well serviced by highways, railroads, barges (on the Mississippi and Missouri Rivers) and by airlines to all major cities.

CLIMATIC CONDITIONS:

Iowa's four distinct seasons provide a climate that is classified as humid continental. Temperatures vary through a wide range, arriving at an annual average of 49 degrees. A typical year brings 166 days of sunshine, 100 days of partly cloudy, and 99 days of cloudy. Since much of the average 32 inches of rainfall comes during the growing season, Iowa climate is ideal for agricultural production and related services/industries. Winter snowfall averages 30 inches, and relative humidity averages 72%.

Iowa is located in what is commonly referred to as the Temperate Zone. The average growing season ranges from 135 days in the extreme north, to 175 days in the extreme southeast portion. Average temperatures during the growing season are well suited to production of feed-cereal grains, as well as forage crops. Annual rainfall is almost always adequate for high crop yields. Long-term averages are within a range of 26 inches in the northwest to 34 inches in the extreme east and southeast.

TOPOGRAPHY:

Located between the Upper Mississippi and Missouri Rivers, Iowa comprises 56,000 square miles, primarily of rolling prairie. Elevation changes are small across the state, varying from 1,670 feet in Osceola County in the northwest, to 480 feet at the mouth of the Des Moines River in the southeast. Some rugged terrain, mainly of forest soils, may be found in the northeast and near major river systems. Most of Iowa's natural lakes are located in the northwest. The topography of Iowa varies from level and undulating in many areas, to slightly rolling and steep or gullied on small portions. Such topography provides large areas suitable for agricultural enterprises.

COMMUNITY DATA

(Continued)

The population statistics for Storm Lake indicate that this is a stable community with a slight growth trend. This is typical for most communities of this size in Iowa. The growth trend is attributed to the presence of Buena Vista University and the surrounding lake.

The household income statistics for Storm Lake are as follows:

 esri	
Executive Summary	
Storm Lake city, IA (1975630) Place	
	Storm Lake ci...
Population	
2000 Population	10,209
2010 Population	10,640
2016 Population	11,014
2021 Population	11,321
2000-2010 Annual Rate	0.41%
2010-2016 Annual Rate	0.55%
2016-2021 Annual Rate	0.55%
2016 Male Population	50.0%
2016 Female Population	50.0%
2016 Median Age	32.8
In the identified area, the current year population is 11,014. In 2010, the Census count in the area was 10,640. The rate of change since 2010 was 0.55% annually. The five-year projection for the population in the area is 11,321 representing a change of 0.55% annually from 2016 to 2021. Currently, the population is 50.0% male and 50.0% female.	

Retail Trade

The total retail sales potential for the Storm Lake are on the following pages. The analysis indicates leakages in several retail sectors. This is because a lot of retail dollars are migrating to Sioux City to the west and Spencer/Spirit Lake/Okobojo to the north.

Restaurants/Other Eating Places	7225	\$8,997,107	\$14,213,688	-\$5,216,581	-22	34

Data Note: Supply (retail sales) estimates sales to consumers by establishments. Sales to businesses are excluded. Demand (retail potential) estimates the expected amount spent by consumers at retail establishments. Supply and demand estimates are in current dollars. The Leakage/Surplus Factor presents a snapshot of retail opportunity. This is a measure of the relationship between supply and demand that ranges from +100 (total leakage) to -100 (total surplus). A positive value represents 'leakage' of retail opportunity outside the trade area. A negative value represents a surplus of retail sales, a market where customers are drawn in from outside the trade area. The Retail Gap represents the difference between Retail Potential and Retail Sales. Esri uses the North American Industry Classification System (NAICS) to classify businesses by their primary type of economic activity. Retail establishments are classified into 27 industry groups in the Retail Trade sector, as well as four industry groups within the Food Services & Drinking Establishments subsector. For more information on the Retail MarketPlace data, please click the link below to view the Methodology Statement.

NEIGHBORHOOD DATA

Adjoining Property Uses

North	Recycling Center / Ag Land
South	Vacant Land
East	Vacant Land / Acreage
West	Storm Lake Wastewater Plant

Neighborhood Boundaries

The neighborhood boundaries are considered to be a five-mile radius of the the incorporated city limits of Storm Lake. The subject is located SE of the Storm Lake city limits along a paved county road. Within the immediate area includes a recycling center as well as the Storm Lake wastewater treatment facility.

Transportation Linkages and Major Arterials

Storm Lake is situated along US Highway 71 and Highway 7 within Northwest, Iowa. US Hwy 71 is the main north-south thoroughfare in the area that runs through Spencer / Okoboji Area to the north and connects to the four-lane Highway 20 to the south.

NEIGHBORHOOD DATA

(Continued)

Neighborhood Trends

The immediate area is established. The community features commercial developments along the main thoroughfares. The remaining area consists of vacant land and single family development. It is estimated that the community will remain stable in the near future with little known development.

The majority of new development is occurring on the north side of Storm Lake as well as towards the central part of town. A new strip center is being developed at 1515 Lake Avenue which will be anchored by a Dollar Tree and Shoe Sensation. In addition, (2) multi-family developments were developed in 2013 at a reported total cost of \$13.1 million. Both projects are subsidized housing projects. The first is a row-style townhome development located along 10th Street, locally known as the "Tenth Street Townhomes". This complex is a (42) two and three-bedroom townhome units that cost roughly \$7.7 million. The 2nd is located at 1500 Seneca Street, locally known as The Reserves. This project includes (2) 16-unit buildings that feature (32) two and three bedroom units with a clubhouse. This complex was projected to cost \$5.4 million to develop.

Development towards the center of the community is from razing of older properties. A McDonalds and Pizza Ranch are some recent developments. Casey's General Store purchased the former Honda dealership along E Milwaukee Avenue to raze the site to develop a new store.

Vacancy

Observed vacancies of the subject's community is typically between 5%-20% for commercial properties.

Employment

Employment was discussed in the community data section of this report.

Neighborhood Comments

The subject is located within a rural area just outside the corporate limits of Storm lake. This community provides the area with commercial service and socio-economic needs. It is expected that the community will remain stable in the foreseeable future.

A local broker who works closely with Tyson's within Storm Lake indicated a current shortage of housing and market rental units within the community. The supply of housing has been at a historic low for well over a year now. He further indicated that Tyson's has been offering lump sum referral fees for existing employees to recruit and bring in new employees.

SITE DESCRIPTION

The subject's site is outlined in red above.

AERIAL PHOTOGRAPH

SITE DESCRIPTION

Shape/Size

The subject site is irregular in shape and contains approximately 104.16 acres based on the records the survey provided above.

Topography/Soil Conditions:

The subject's site has a rolling topography and is above street level. A soil survey was not furnished to the appraiser but the soil conditions are assumed adequate to support those uses deemed to be the highest and best use of the site.

Visibility/Access

The subject site is accessed from 630th Street to the north.

Utilities:

Electricity	Yes
Cable	None
Natural Gas	None
City Water	Yes
Sanitary Sewer	None

Zoning:

The subject property is zoned A-1, Agricultural District with a special use permit for lagoons. This zoning district allows for a variety of agricultural uses as well as the current use due to a special use permit.

Flood Zone:

The subject property is not mapped but appears to be upland with a small area long the west side of the property that may flood.

Encroachments/Easements:

The subject will have an access easement along the east side of the property. This is not considered detrimental and does not have a significant impact on value.

General Comments:

The site is considered adequate for the development of the improvements.

IMPROVEMENT DESCRIPTION

Building Summary "As Is"

Lagoons:

The subject property includes seven (7) lagoons that vary in depth, size and use.

North Two Lagoons:

The north two lagoons are influent covered lagoons that are approximately 17' deep. These lagoons have covers that were replaced in 2000 and cost approximately \$400,000/cover. Although well cared for, a typical life of the cover is 20. The purpose of these lagoons is to remove large sentiments. Water comes out of these lagoons and goes to a bar screen located by the office that was constructed in 1987.

Lagoon South of Two North Lagoons:

This lagoon contains the living organisms within sludge that break down and helps clean water. These organisms are circulated through the water within two 160' x 80' (18' deep) and two 64' diameter (12' deep) structures located to the east of an office building. The office building (2,640 SF+/-) was constructed in 1966 and includes a small office, electrical room, small shop area, and chemical room. The lab area located between the concrete structures includes additional pumps, electrical, and mechanical equipment.

Lagoon South of Two North Lagoons:

South of the office area are two effluent off spec lagoons that are 6' deep and hold 48,000,000 gallons.

Lagoon South of Effluent Lagoon:

This lagoon is also 6' deep and holds 22,000,000 gallons. This lagoon will house water that will travel to the last lagoon before being discharged into the stream to the west. The final OO² lagoon is 6' deep and holds 18,000,000 gallons.

There are pump houses located at the NW and SW corners of the property that house lift stations, pumps, heaters, and samplers.

There is also a 2000 built concrete block structure that that is approximately 4,650 SF that lies along 630th Street. This property includes the burner, mechanical room, chemical storage area, and chemical byproduct area.

The garage area/maintenance area is 816 SF block building. This property was the former office area when the City of Storm Lake owned the property but is currently unheated storage area.

Year Built	1966 with numerous additions, improvements and modifications
Actual Age	Actual Age is the years that have elapsed since the completion of the improvements. The subject property is an existing construction. The actual weighted age is unknown.
Effective Age	Effective age is the age indicated by the condition and utility of a structure. The subject property is an existing construction. The effective age as of the effective date of this appraisal is estimated to be 25 years.
Economic Life	Economic life is the period of time over which the improvements to real estate contribute to property value. Economic life and physical life can differ widely. The estimated economic life of this type of property is 25 years.
Remaining Economic Life	Remaining economic life is the estimated time during which improvements continue to contribute to property value. The estimated remaining economic life of the subject property is 0 years.

MARKET ANALYSIS

Subject Overview:

The subject property is a wastewater treatment facility owned by the City of Storm Lake and operated by Tyson Foods. The property was originally constructed to service the community of Storm Lake in what appears to be 1966. Since this date, the City of Storm Lake constructed a new facility on the land area adjacent to the west of the subject and leased the subject property to IBP for 20 years with (1) 20-year option for \$1.00/year beginning in 1982. IBP, now Tyson Foods, exercised the 20-year option which is set to expire 4/20/2022. Over the course of lessee's tenure at the property, there have been a number of leasehold improvements to the equipment, buildings, site and processes.

Recently, the DNR inspected the subject property and is requiring additional procedures to remove phosphorus from the water as part of the State of Iowa water quality standards. The new regulations will include installation of two sludge dryers, two holding tanks, piping, pumps, a bunker, a dissolved air floatation unit, and two presses to reduce water moisture in sludge. Final costs have not been accumulated but a representative for Tyson Foods estimates the cost to be \$10,000,000.

An interview with a Tyson Foods employee indicated that there have been two properties that have been remediated and converted back to an alternative use. The conversion process includes removing all sludge, removing rip rap along lagoons, demolishing building and underground piping, excavating lagoons, and adding fill dirt. Costs associated with these projects have ranged from \$6,000,000-\$8,000,000+. The subject is estimated to be at the upper end of this range due to the fact the property is larger than both comparables but the subject has been well managed with lower sludge contents. If the property were to have sludge removed and be utilized for recreational purposes, the estimate value for the land area would, at the most, \$2,500/acre or \$260,000. This assumes no external obsolescence from the recycling center or neighboring wastewater treatment facility. As a recreational use, the property would be classified as agricultural or likely purchased by a non-profit and hence, would generate minimal tax revenue.

The subject property has limited marketability for an alternative use. The utility of the subject property is limited to anyone other than the current tenant as the piping to the subject leads to only one location and the subject process is specific to a meatpacking facility. That said, there is a need for Tyson Foods to have such facility. Currently, the subject property is tax exempt as it is owned by the City of Storm Lake. If the property were to transfer to a private entity, the property would be restored back to the tax roll. A Tyson Foods representative indicated that the average taxes paid for their lagoon systems is approximately \$40,000/year (varies based on assessment, rollback, and levy rates).

A full copy of the current lease agreement can be found within the addendum.

HIGHEST AND BEST USE ANALYSIS

Highest and Best Use is defined as:

“The reasonably probable use of the property that results in the highest value.”⁴

The highest and best use of the land as though vacant and/or property as improved must meet the following four criteria:

1. Physically Possible:

What uses of the site and/or building in question are physically possible? The size, layout, and other physical factors can affect the possible uses of the land/or improvements.

2. Legally Permissible:

What uses are permitted of the site and/or improvements in question? Private restrictions, zoning, building codes, historic district controls, and environmental regulations must be investigated because they may preclude many potential highest and best uses.

3. Financially Feasible:

Which possible and permissible uses produce a return to the owner of the site? Uses that meet the first two criteria are analyzed further to determine which are likely to produce an income, or return, equal to or greater than the amount needed to satisfy operating expenses, financial obligations, and capital amortization. All uses that are expected to produce a positive return are regarded as financially feasible.

4. Maximally Productive:

Of the financially feasible uses, the use that produces the highest price, or value, consistent with the rate of return warranted by the market for that use is the highest and best use.

⁴ The Appraisal of Real Estate, 14th Edition, pg 332.

HIGHEST AND BEST USE ANALYSIS

AS VACANT:

Legally Permissible:

The subject property is zoned A-1, Agricultural District with a lagoon special use permit. The district allows for numerous agricultural purposes as well as a lagoon.

Physical Possibility:

The topography is rolling but generally slopes from north to south. The property has access to city water and public electric to the site. There are no physical limitations to prevent development of the subject's site with any of the uses permitted by its own physical size.

Financial Feasibility Test:

The subject has frontage on a road along 630th Street from the north. The immediate area generally caters to agricultural purposes with a recycling center and Storm Lake wastewater treatment plant adjoining to the north and west, respectively. Given the neighboring properties, development is unlikely. As such, an agricultural or recreational purpose would be the only financially feasible use.

Maximum Productivity Test:

The highest and best use for the subject, as vacant, would be for some type of agricultural. The likely user would be a developer and the timing is immediate.

AS IMPROVED:

The subject property is improved with a wastewater treatment plant for a local meatpacking plant. The property was originally constructed in 1966 with numerous additions and modifications throughout the life of use. The tenant, Tyson Foods, has made and paid for all of these improvements since originally leasing the property in 1982.

Legal Permissibility:

The subject property is zoned A-1, Agricultural District with a lagoon special use permit. The current use is an allowed use in this zoning district due to the special permit.

Physical Possibility Test:

The size, shape, area, terrain, accessibility, and risk of natural disasters such as floods affect the uses to which the subject can be developed. The subject property is designed for use as a wastewater treatment facility. The site is considered adequate for the improvements.

Financial Feasibility Test:

The subject property is located along a county road in Buena Vista County. Neighboring properties include agricultural uses, an acreage, a wastewater treatment facility and a recycling center. As discussed within the market analysis prior, the subject is required to incur significant improvements to remove additional phosphorus from the water prior water discharge into the neighboring stream. These cost are estimated to be \$10,000,000 and would not be financially feasible for any entity other than the current user. Furthermore, if the property were to become vacant, the estimated remediation cost to make the site usable for an alternative use would be approximately \$8,000,000 per market participants. This includes approximately 60%-75% of the costs to remove sludge from the lagoons with the remainder for the demolition of buildings, dikes, removal of rip rap along lagoons, excavation, and fill. The City of Storm Lake has historically leased the site to lessee for \$1/year, which is believed to be market based on the limited marketability of the property.

Maximum Productivity Test:

Of the financially feasible uses, the use that produces the highest price, or value, consistent with the rate of return warranted by the market for that use is the highest and best use. Thus, the current use with required improvements by the tenant is the highest and best use for the subject property. Given the costs to conform to current regulation and cost to remediate the property and convert the area back to an alternative productive use, there would be limited marketability outside the current tenant. Therefore, the fair market value for the subject property would be \$1.00.

RECONCILIATION & FINAL VALUE CONCLUSION

Summary & Conclusion:

Due to the specific use nature of the subject property, the required investment to continue operation due to current regulations, and costs associated with the remediating the subject use to allow for an alternative use, and residual value upon conversion of alternative use, there would be minimal interest in the subject property outside of the current tenant.

As a result of my investigation, and based upon the foregoing data and analysis, it is my finding that the market value of the Fee Simple Estate of the subject property, with the value date of February 19, 2020, "As Is", and subject to the Underlying Assumptions and Limiting Conditions and Certifications in the sum of:

\$1.00

ONE DOLLAR

ASSUMPTIONS AND LIMITING CONDITIONS

1. This is an Appraisal Report, which is intended to comply with the reporting requirements set forth under Standard Rule 2-2(a) of the Uniform Standards of Professional Appraisal practice for an Appraisal Report. As such, it includes only brief discussions of the data, reasoning, and analyses that were used in the appraisal process to develop the appraiser's opinion of value. Supporting documentation concerning the data, reasoning, and analyses is retained in the appraiser's file. The information contained in this report is specific to the needs of the client and for the intended use stated in this report. The appraiser is not responsible for unauthorized use of this report.
2. No responsibility is assumed for legal or title considerations. Title to the property is assumed to be good and marketable unless otherwise stated in this report.
3. The property is appraised free and clear of any or all liens and encumbrances unless otherwise stated in this report.
4. Responsible ownership and competent property management are assumed unless otherwise stated in this report.
5. The information furnished by others is believed to be reliable. However, no warranty is given for its accuracy.
6. All engineering is assumed to be correct. Any plot plans and illustrative material in this report are included only to assist the reader in visualizing the property.
7. It is assumed that there are no hidden or unapparent conditions of the property, subsoil, or structures that render it more or less valuable. No responsibility is assumed for such conditions or for arranging for engineering studies that may be required to discover them.
8. It is assumed that there is full compliance with all applicable federal, state, and local environmental regulations and laws unless otherwise stated in this report.
9. It is assumed that all applicable zoning and use regulations and restrictions have been complied with, unless a non-conformity has been stated, defined, and considered in this appraisal report.
10. It is assumed that all required licenses, certificates of occupancy, or other legislative or administrative authority from any local, state, or national governmental, or private entity or organization have been or can be obtained or renewed for any use on which the value estimates contained in this report are based.
11. Any sketch in this report may show approximate dimensions and is included to assist the reader in visualizing the property. Maps and exhibits found in this report are provided for reader reference purposes only. No guarantee as to accuracy is expressed

or implied unless otherwise stated in this report. No survey has been made for the purpose of this report.

12. It is assumed that the utilization of the land and improvements is within the boundaries or property lines of the property described and that there is no encroachment or trespass unless otherwise stated in this report.
13. The appraiser is not qualified to detect hazardous wastes and/or toxic materials. Any comment by the appraiser that might suggest the possibility of the presence of such substances should not be taken as confirmation of the presence of hazardous waste and/or toxic materials. Such determination would require investigation by a qualified expert in the field of environmental assessment. The presence of substances such as asbestos, urea-formaldehyde foam insulation, or other potentially hazardous materials may affect the value of the property. The appraiser's value estimate is predicated on the assumption that there is no such material on or in the property that would cause a loss in value unless otherwise stated in this report. No responsibility is assumed for any environmental conditions or for any expertise or engineering knowledge required to discover them. The appraiser's descriptions and resulting comments are the result of the routine observations made during the appraisal process.
14. Unless otherwise stated in this report, the subject property is appraised without a specific compliance survey having been conducted to determine if the property is or is not in conformance with the requirements of the Americans with Disabilities Act. The presence of architectural and communications barriers that are structural in nature that would restrict access by disabled individuals may adversely affect the property's value, marketability, or utility.
15. Any proposed improvements are assumed to be completed in a good workmanlike manner in accordance with the submitted plans and specifications.
16. The distribution, if any, of the total valuation in this report between land and improvements applies only under the stated program of utilization. The separate allocations for land and buildings must not be used in conjunction with any other appraisal and are invalid if so used.
17. Possession of this report, or a copy thereof, does not carry with it the right of publication. It may not be used for any purpose by any person other than the party to whom it is addressed without the prior written consent of the appraiser, and in any event, only with proper written qualification and only in its entirety.
18. Neither all nor any part of the contents of this report (especially any conclusions as to value, the identity of the appraiser, or the firm with which the appraiser is connected) shall be disseminated to the public through advertising, public relations, news sales, other media without prior written consent and approval of the appraiser.

RE: Wastewater Lagoon Facility Agreement

Dear Mr. Call:

Your November 25, 2002 letter to Mr. Schmitz has been forwarded to my attention. After discussing this matter internally, it is IBP's desire to exercise the option in Section 1 of the Wastewater Lagoon Facility Lease Agreement dated April 15, 1982 to extend IBP's lease over the waste water treatment system for an additional twenty year period to expire on April 20, 2022.

To acknowledge that the City of Storm Lake accepts and acquiesces to IBP's right to extend the lease period over the waste water treatment system to April 15, 2022, as specifically mentioned in Exhibit "A" of the April 15, 1982 agreement, and that such an option was exercised timely, please sign below:

John Call, City Administrator for the City of Storm Lake

Once you have signed the acknowledgment please send me a copy for our files here. If you have any questions in regards to this issue please do not hesitate to contact me.

Sincerely,

James C. Meehan

RE: Lagoon Wastewater Treatment Facility Agreement - Storm Lake

Dear Jim:

During our recent contract negotiations with respect to the Water Agreement, I believe that we were in full agreement that the lease by the City to Tyson of the lagoon facilities was not affected by the Water Agreement, and the Water Agreement so recited that fact, but apparently neither Tyson nor the City actually reviewed the Wastewater Lagoon Facility Lease Agreement to see if it needed updating.

In any case, I have reviewed the Agreement and note that by its terms, it expired April 20, 2002 although Tyson had the option in the Agreement to renew the Lease Agreement for an additional 20 year period.

The City is not interested in trying to negotiate to increase the rental amount due from Tyson for the lagoon facilities, but for the record, we do require something in writing from Tyson before any additional time passes to indicate that Tyson is exercising the option contained in the earlier Agreement to continue the lease for the additional 20 year period until April 20, 2022. I would therefore request that Tyson exercise that option in writing in a letter directed to me so that we will have it on file, and if you wish, you can put in a provision where I will countersign your letter to indicate that the City accepts the exercise of the option as timely filed.

Very truly yours,

A handwritten signature in cursive script, appearing to read "John Call".

John Call, City Administrator

Sec 1 – Lease of Treatment Plant

- 20 Year Lease + 20 year option
- \$1.00

Sec 2 – Only IBP Company uses

Sec 3 – Agreements until new City WWTP is constructed

Sec 4 – Old agreement w/Hygrade not obligation of IBP (cost sharing of construction)

Sec 5 – Improvements – made by IBP & paid by IBP

Sec 6 – Company to comply with DNR re: construction – Plans to City also

Sec 9 – City can inspect anytime

Sec 10 – Maintenance company shall maintain in accordance with state regulations

Sec 11 – If company no longer uses – subsequent users must pay IBP

Sec 12 – If company sells, lease is assignable with City approval which shall not be unreasonable withheld

If production ceases for 2 years, no renewal is automatic

6-7-82 Sewer Line Usage Change 82

Change in outfall lines and usage

IBP uses 18" line

Costs, etc.

7-1-82 Water Agreement

- 7 years +13 years renewable
- 2,250,000 g/d weekly average not more than 2.5 mgd
- 50-60 psi
- How rates are determined
- Treatment
- 10 grains hardness – below IBP doesn't pay
- Sect 5 10 inch line used only by plant – costs paid by IBP
- Sect 6 Capital after yr 7
 - % cost of plant expansion, new wells
 - if rev bonds – only % share due each year.
- No resale of water

1-10-85 Sewer Line Change '85

Agreement deals with an 18" and 30" sewer line swapping one for the other

10-8-91 Sewer Line Change '91

- 30" to City – abandoned cleaning, plugging, etc.

6-8-92 Reservoir & Tank Agreement (Financing)

- construction of 1.32 million in 90-91
 - Financed w/GO Bonds
- Question Does Company owe? Owe share up front? Owe share of pmt?

1. Agreement applies only these improvements
2. Company shall reimburse principal & interest of GO Bonds
3. Company doesn't have to pay for 500,000 elevated tank only reservoir based on benefit to company. Company to pay 56% of payment owed.
4. 5-year average to determine share
5. waiting for average until after current year

7-6-98 Letter of Understanding – Privatization & Costs

- City will privatize OM & M
 - 2 – IBP will pay based on
 - 2 & b) Roughly same formula
 - c) Capital Costs per Sec. 6 of April 15, 1982 supplemental Agreement
 - d) 100% of Sec 5 from 1982 agreement
- 6 IBP can audit for savings comparison
- 7 No material change

RECORDED

AGREEMENT

THIS AGREEMENT is made and entered into between the CITY OF STORM LAKE, IOWA, a municipal corporation, herein referred to as CITY, and IOWA BEEF PROCESSORS, INC., a corporation doing business in the State of Iowa, herein referred to as COMPANY.

RECITALS

A. Company is engaged in the meat processing business and is considering the possible purchase of the Hygrade Food Products Corporation meat packing facilities in Storm Lake, Iowa.

B. City is willing to agree to certain conditions as an inducement to Company to purchase and operate the now idle Hygrade Food Products facilities, including but not limited to leasing of waste treatment facilities, land acquisition and parking, water rates and street lights.

C. City owns and operates and maintains an industrial waste treatment facility in Section Twenty-Four (24), Township Ninety (90) North, Range Thirty-Seven (37) West of the 5th P.M.

D. The Iowa Department of Environmental Quality has found that the present facilities are not adequate under certain circumstances and conditions and that the said industrial waste water treatment facility must be upgraded to meet final effluent limitations.

E. City desires to contract a lease agreement with Company to have Company take over the operation and improvement of the said facility, and Company is willing to contract with City for the Company to assume the construction, operation and maintenance of the said industrial waste water treatment facility as provided herein.

F. City intends to construct improvements to its municipal waste treatment facility to treat sewage waste in the City of Storm Lake, Iowa and the City of Lakeside, Iowa, excluding waste of Company.

IN CONSIDERATION OF THE MUTUAL COVENANTS SET FORTH HEREIN, it is agreed by the parties as follows:

Section 1. Lease of Industrial Waste Water Treatment System. City shall lease to Company and Company shall lease from City the Industrial Waste

971481

971481

Water Treatment System for a period of twenty (20) years beginning April 20, 1982, and ending April 20, 2002, with an option to Company to renew for an additional twenty (20) year period, unless sooner terminated by mutual agreement of the parties. The INDUSTRIAL WASTE WATER TREATMENT SYSTEM (hereinafter called INDUSTRIAL SYSTEM), including the land upon which it is situated, is described as set forth on Exhibit A, attached hereto and made a part hereof. Company shall pay to City for said lease the sum of One Dollar (\$1.00) and other valuable consideration.

Section 2. Exclusive Use. Company shall be the exclusive user of the said leased Industrial System after completion of the municipal waste water treatment facility by City.

Section 3. Conditions of Use. For that period of time until a proposed new City municipal waste water treatment facility is constructed and placed in operation, Company agrees to:

A. Continue to treat waste water from the City of Lakeside in the Industrial System for a period not to exceed five (5) years from the date of this Agreement.

B. Continue to accept City sludge for a period not to exceed five (5) years from the date of this Agreement.

For and during the period of time until a proposed new City municipal waste water facility is constructed and placed in operation, the City agrees to:

C. Pay to the Company for the treatment of waste from the City of Lakeside, Iowa, during the interim period before said Lakeside waste is diverted to the municipal waste water treatment system to be constructed by the City, an amount equal to 79 cents per 1,000 gallons of City water delivered to the City to Lakeside from the City of Storm Lake, Iowa, excluding water resold to Bel Air Beach.

D. Complete the cleaning of all lagoons in the Industrial System by removing accumulated sludge prior to the takeover of operation by Company or as soon thereafter as is feasible. As of the signing of this Agreement, the City has completed the cleaning of the anerobic and aerobic ponds and this Agreement is therefore limited to the cleaning of the large storage ponds.

971481

F. Inspect by I.V. and clean the 15 inch sewer line from the said Hygrade Plant to the manhole east of Flindt Drive and the 18 inch sewer line carrying sewage waste from the Hygrade facility for the 2,275 feet length of 18 inch pipe at the expense of City and certify that the 18 inch pipe and the 30 inch pipe carrying sewage waste from the Hygrade facility to the Industrial System are open and in satisfactory working condition prior to the takeover of operation by Company.

F. If sludge is discharged into the industrial lagoon, pursuant to subparagraph B of this section, the City agrees to pay a prorata share of the expenses of dredging the sludge out of the Industrial System whenever Company elects to dredge this sludge pursuant to its responsibilities as hereafter set out. For purposes of determining City's prorata share, City and Company shall each appoint one engineer to estimate the respective contributions of sludge of City and Company who shall then determine the actual prorata share to be assumed by City.

G. Provide for the treatment and handling of all sludge and skimmed material, storm water and untreated municipal waste water in the municipal waste water treatment facility to be constructed. City, after completion of the improvements to the municipal waste water treatment facility, shall at no expense to Company:

H. Disconnect from the Industrial System line(s) the waste water from the City of Lakeside, Iowa.

I. Separate and isolate the City municipal waste system from the industrial interceptor and Industrial System to prevent any cross-connections, by-passes and discharges from the municipal system to the Industrial System.

Section 4. Industrial Waste Agreement. City agrees that Company will not be charged for obligations to City of Hygrade Food Products Corporation for cost sharing of the construction of industrial waste water treatment facility pursuant to the Industrial Waste Agreement between the City and Hygrade dated the 7th day of February, 1966.

Section 5. Cost of Improvements; Permit. The cost of improving the leased portion of the Industrial System will be paid by Company and the construction of the same will be under the control of Company. The engineering services will be provided by Company, including design analysis, preliminary and final plans and specifications. Company will pay all operation and maintenance expenses of the Industrial System leased to Company during the period of the lease and Company agrees to clean and remove all sludge accumulated in the Industrial System at the termination of the lease unless said sludge has been removed within the preceding five (5) years. During the period of the lease, Company will hold the National Pollution Discharge Elimination System (NPDES) permit.

Section 6. Compliance with Specifications. The construction of the industrial waste water treatment system improvements shall be carried forward by Company pursuant to the final plans and specifications for the proposed improvements as submitted to and approved by the Iowa Department of Environmental Quality. After approval, Company will provide a complete set of the plans and specifications to City to become a part of City's permanent records.

Section 7. Time for Performance. Company shall proceed with construction of the industrial waste water improvements as soon as (a) final plans and specifications are approved by the Department of Environmental Quality, and (b) Company acquires title to the Storm Lake plant of Hygrade Food Products Corporation. If for any reason Company's proposed acquisition of said plant fails to close, Company shall be excused from its obligations under this instrument, which shall be deemed void and of no further force and effect.

Section 8. Industrial Interceptor and Industrial Lift Station. Company shall operate and maintain the industrial interceptor up to the inlet to the anaerobic cells and the industrial lift station, subject to City having said interceptor line and lift station in satisfactory working condition on the effective date of this Agreement.

Section 9. Inspection. City shall have the right to inspect the Industrial System at any time.

Section 10. Maintenance. Company shall maintain and operate the said Industrial System being leased by it in accordance with the standards established by the Iowa Department of Environmental Quality and shall comply with

971481

all orders of said Department, except as the same may be contested by Company by proper administrative and judicial procedures.

Section 11. Cost Recovery. In the event that Company discontinues the use of the Industrial System, said facility shall not be used by City or by any other firm, company, person or association until such time as Company is paid for its equipment costs, carried at book value, less depreciation, to be fully depreciated in not more than fifteen (15) years. The cost balance payback may not be longer than over a ten (10) year period if used by the City and five (5) years if user is other than the City. The City agrees to act as the agent to receive and disburse payments between the user and Company.

Section 12. Right to Assign. City agrees that if Company sells its Storm Lake packing facility, it may assign this Agreement for the construction of improvements, operation and maintenance of the said waste water treatment system subject to assumption and compliance with all of the provisions hereof by the assignee and approval of the assignee by City which approval shall not be withheld except for reasonable cause. Any assignment shall not release Company from any of its responsibilities and obligations under this contract in the event it continues to operate its Storm Lake packing facility. In the event that Company should cease meat packing operations for a period of two (2) years the option granted herein to Company to renew this Agreement for an additional twenty (20) year period shall expire and terminate.

Section 13. Financing. City agrees to issue industrial revenue bonds to be financed by payments from Company for the cost of improvements to the said industrial waste water treatment system in the event that the City's bonding attorneys render an opinion that such financing is feasible and Company requests such financing. The cost of issuance of the industrial revenue bonds will be at the expense of Company.

Section 14. Compliance. City agrees to comply with the requirements of Chapter 364 of the Code of Iowa, 1981, and particularly with Section 364.7 thereof.

Section 15. Indemnification by City. City shall indemnify Company and its agents and employees from and against all claims, damages, penalties, fines, losses and expenses that are caused by City's negligent or intentional

acts or omissions or that of its agents or employees or anyone employed by them or for whose acts City may be held liable provided said negligent or intentional acts or omissions are within the scope of the City's responsibilities assumed by the contract, including any claims arising by reason of the operation and maintenance of said Industrial System prior to the date of this lease.

Section 16. Indemnification by Company. Company shall indemnify City, its elected officials and officers, agents and employees from and against all claims, damages, penalties, fines, losses and expenses that are caused by Company's negligent or intentional acts or omissions or that of its agents or employees or anyone employed by them or for whose acts Company may be liable provided said negligent or intentional acts or omissions are within the scope of Company's responsibilities assumed by this contract, including any claims arising by reason of the operation and maintenance of the said Industrial System subsequent to the date of this lease. In addition, Company agrees to hold City harmless from any liability for costs related to the construction and improvements to the Industrial System and it shall not permit any lien for such costs which may be enforceable to remain as a lien against the premises.

Section 17. Land Acquisition. City agrees to acquire any additional land required for expansion of the Industrial System and such other additional land as City determines may be required for public purposes which are reasonable and necessary to implement expansion of the production facilities of Company. All costs of acquisition will be at Company's expense.

Section 18. Water Supply. City will furnish and sell water to Company subject to conditions set forth in a supplemental agreement.

Section 19. Lighting and Parking. City agrees that it will cause to be installed and operated at its expense on City right-of-way for so long as Richland Street remains a City street sufficient street lights to adequately light the street. The City further agrees that curbs on the existing streets adjacent to the plant facilities may be modified or changed to accommodate parking and plant operations.

Section 20. Entire Agreement. This Agreement constitutes the entire contract between the parties hereto and no party shall be liable or bound to another in any manner except as specifically set forth herein.

971481

Section 21. Modification. This Agreement may not be changed or modified except by agreement in writing.

Section 22. Benefit. The terms and conditions of this Agreement shall inure to the benefit of and be binding upon the respective legal representatives, successors and assigns of the parties hereto.

Section 23. This Agreement is made pursuant to and shall be construed under the laws of the State of Iowa.

Section 24. To the extent that references are made in this contract to the assumption of an expense by City at no cost to Company, that provision shall not operate to relieve Company from any tax levy made by City including a tax levy to cover the cost of general obligation bonds and which tax levy shall be applicable to all property owners within the City of Storm Lake and provide further that this paragraph shall not be construed to reduce any property tax exemption provisions for which Company might otherwise qualify.

IN WITNESS WHEREOF, the parties have executed this Agreement on the

15th day of April, 1982.

RESOLUTION NO. 26-R-2020-2021

RESOLUTION PROPOSING SALE AND DISPOSITION OF REAL ESTATE
AND PROVIDING NOTICE TO THE PUBLIC

WHEREAS, the City of Storm Lake, Iowa (the ACity@) is the owner of real estate described as:

A TRACT OF LAND LOCATED IN PART OF THE EAST HALF (E ½) OF SECTION 24, TOWNSHIP 90 NORTH, RANGE 37 WEST OF THE 5TH P.M., BUENA VISTA COUNTY, IOWA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

Commencing at the Northwest (NW) corner of the Northeast Quarter (NE ¼) of said Section 24: Thence South 88° 09' 32" East, along the North line of said Northeast Quarter (NE ¼), 261.00 feet to the Point of Beginning. Thence continuing South 88° 09' 32" East, along said North line, 1337.28 feet; Thence South 00° 21' 39" West, 3203.11 feet; Thence North 89° 41' 42" West, 1389.00 feet; Thence North 00° 56' 28" West, 304.04 feet; Thence North 44° 09' 45" East, 241.54 feet; Thence North 30° 06' 30" East, 70.02 feet; Thence North 00° 04' 12" East, 624.38 feet; Thence North 13° 28' 06" West, 60.70 feet; Thence North 34° 56' 11" West, 471.33 feet; Thence North 00° 19' 00" East, 853.75 feet; Thence North 89° 55' 38" East, 128.30 feet; Thence North 01° 47' 22" East, 777.46 feet to the Point of Beginning.

Hereafter known as Lot H in Section 24, Township 90 North, Range 37 West of the 5th P.M., Buena Vista County, Iowa.

Tract contains 99.92 acres and is subject to all easements of record.

(the "Real Estate");

WHEREAS, the City has received a proposal from Tyson Fresh Meats, Inc. ("Tyson"), in the form of a proposed Real Estate Contract (the "Contract") by and between the City and Tyson, pursuant to which the City would sell and convey the Real Estate to Tyson at a purchase price of \$1.00;

WHEREAS, the Real Estate, which the City has leased to Tyson and its predecessor meat packing operations for many years at a rental of \$1.00 and serves as a wastewater treatment facility

for Tyson, is not needed by the City;

WHEREAS, Tyson needs to make significant costly improvements to the wastewater treatment facility and desires to own the facility before making that investment;

WHEREAS, a copy of the Contract is on file for public inspection during regular business hours in the office of the City Clerk, City Hall, 620 Erie Street, City of Storm Lake, Iowa.

NOW, THEREFORE, BE IT HEREBY RESOLVED that the City of Storm Lake, Iowa does hereby propose to sell, dispose of, and convey, the Real Estate to Tyson on the terms described above.

IT IS FURTHER RESOLVED that this proposal shall be scheduled for a public hearing at the Council Chambers at City Hall at a regular council meeting scheduled for December 7, 2020, at 5:00 p.m. The City Clerk is further directed to have a copy of this Resolution published in the Storm Lake Times on a date not less than four (4) days nor more than twenty (20) days prior to said meeting.

Passed and approved this 16th day of November, 2020.
